134881

To,

Thakore Saheb Rajsinhji of Maliya.

Respected Sir,

In Compliance with your orders, I have the honour to submit the Annual Administration Report of this State for the year 1915-1916 A. D. (St. 1971).

Maliya Hazur Office.
10th April 1916.

I have the honor to be,
Sir,
Your Most Obedient Servant,
JAYSUKHRAM L. PARGHI,
Kamdar Maliya.

ANNUAL

ADMINISTRATION REPORT

OF THE

MALIYA State.

For the year 1915-16.

CHAPTER I.

GENERAL AND POLITICAL.

Area...	...	...103 Square Miles.
Population...	...	...12,134 Souls according to census of 1911.
Gross Revenue.	...	...Rs. 133600 based on an average of past 5 years.
Baroda Tribute.	...	...Rs. 1,182.
Junagadh Jortalbi.		...Rs. 185.
Total		..Rs. 1,367.

The Ruling Family

2. Thakore Saheb Shri Rajsinhji Modji the Chief is 50 years of age and is a Jadeja Rajput. He was educated at the Rajkumar College Rajkot. His present wife is a daughter of the Jhalla Garasia of Malvan, who are Bhayats of the reigning family of Dhrangdhra. The Thakore Saheb has 3 sons. The eldest Kumar Shri Gumansinhji the heir-apparent is 30 years old and is well educated at the Rajkumar College, and resides with the Thakore Saheb of Rajkot, as his Honorary Personal Assistant. He had been with his family

members to Bombay, Mahableshwar, and Panch Gini for the benefit of his health ; latterly he had been to Chuda in February last. His health has generally improved but still he is thinking of a change and intends to go to Mahableshwar again. Kumar Shri Bharatsinhji the second son is 22 years of age. He is a Deputy Superintendent of Police at Jacobabad [Sind], but is at present here on 6 months, extraordinary leave on account of indifferent health, since November last. Kumar Shri Balvirsinhji the third and the youngest son is 14 years old. He is prosecuting his studies at the Talukdari Garasia School Wadhwan Civil Station. His progress is reported to be satisfactory.

Ba Ma Saheb's Illness

3. Ba Ma Saheb Subjiba Saheb the widow of the late Thakore Saheb Modji resides at Khakhrechi and draws the usual fixed Jivai. She had become ill out of a trivial accident in November last, and at one time it was feared that the illness would likely take a serious turn, whereupon her 2 daughters [Kesarkunvarba Saheb the step mother of Maharana Saheb of Chho'a Udeypur in the Revakantha Agency and the other Majirajba Saheb the mother of the Chuda Thakore Saheb] came down to Khakhrechi to inquire after their mother's health and have left for their respective places on Ba Ma Saheb's full recovery by the Grace of the Almighty God.

Tour of the Thakore Saheb

4. The Thakore Saheb accompanied by the Kamdar had been to Dhrangdhra in October last, to see H. H. the Rajsaheb of Dhrangdhra in connection with certain State matters. He had the pleasure of seeing the Political Agents of Halar and Jhalawad who were also there. The Thakore Saheb visited the Political Agent at Chotila for State business with his Kamdar.

H. E. the Governor's visit at Rajkot

5. His Excellency Lord Willingdon the Governor of Bombay visiting Kathiawar in February was to be in Rajkot on the 7th and 8th and consequently the Agent to the Governor having issued invitations to the Chiefs and Talukdars to grace the occasion, the Thakore Saheb accompanied by the Kamdar and Kumar Shri Bharatsinhji reached Rajkot on the 5th. The Thakore Saheb and the Kamdar were present at the various functions there and H. E. the Governor gave them the honour of an interview at 1. P. M at the Kothi Bungalow, which honour to this Taluka is first of its kind.

Dwarka Pilgrimage of the ThakoreSaheb

6. In the beginning of March the Thakore Saheb accompanied by his mother, 2 sisters and Kumarshri Bharatsinhji proceeded to Dwarka on a pilgrimage and after going to Beyt and other places of interest on the way, returned here on the 1st April. During his absence his Powers to carry out works were delegated to the Kamdar.

Political Relations

7. The Political relations with the neighbouring States of Cutch, Dhrangdhra, and Morvi were as cordial as before.

Domestic Events

8. The marriage of Kumarshri Bharatsinhji the second son of the Thakore saheb with Kunvarishri Vasantkunvarba a daughter of Jhalla Kalubha of Minapur under Chuda at present Aide-De-Camp to H. H. the Maharaja Saheb of Bhavnagar was performed in the month of May last.

District Tour

9. The Thakoresaheb in company of the Kamdar had proceeded to Khakhrechi and other villages whenever necessity occured and fully attended to the wants of the people.

Visit of the Political Officers

10. The rains having held off in August and a great part of September the situation appeared to be very acute and crops apparently showed signs of withering, it was thought expedient to assist the people by sending them to graze their cattle where good pasturage was reported, to tide over the situation. The Deputy Assistant Political Agent Halar, paid a visit in the last days of August to report on the situation, under the orders of the Political Agent Colonel C. F. Harold, the Political Agent Halar, came here on the 13th September and stayed for three days and made arrangements to send 4 of the Miana Mukhis to other places to give them a lesson that those disobeying the legitimate orders of the authorities, and so long as, they have not shown approved good conduct, they shall have to live outside the State limits. Three of them have come here on binding themselves to behave well and on giving securities, while the fourth is promising good conduct in future and gives sound security for good behaviour. The Thakor Saheb with his wonted good sense has consented to bring him back. The Political Agent Halar also paid a visit in October to give the benefit of his valuable advice with regard to assistance for getting grass to be given to the Mianas and the cultivators on account of scarcity which was staring in the face.

During his visit in September the Political Agent visited the Jail, Dispensary, & the Police Line and was satisfied with what he saw. He also paid a return visit to the Thakor Saheb.

War Contribution

11. At the time of the installation, the Thakor Saheb promised to help Government with the whole resources of the Taluka and had expressed his willingness to join active service. The Taluka had remitted Rs. 1060 to the War Fund, paid Rs. 597-12-0 as its share of the Motor ambulance fleet, presented by the Chiefs of Kattyawad, and gave a fine tent worth Rs. 800/ for a War Hospital, and is subscribing a monthly contribution of Rs. 15 to the Tailoring Fund Rajkot, till the war ends. The Kamdar convened meetings at Maliya & Khakhrechi and explained to the people in general & the Mianas in particular the righteous cause for which the British had joined the Allies against the Central European powers, and prayed to the Almighty to grant success to the British Arms.

Rejoicings for Russian Naval victory and war anniversary prayers

12. The 25th of August was observed as a general Holiday on account of the great Russian naval Victory, and flags were hoisted in the Police Thana & Darbargadh. On the 4th of August prayers were offered by the general Public including the Thakor Saheb, Officers & Bhayats in ths Swaminarayan Mandir for a successful termination of the War in favour of the Allies, The Mianas & Jains held similar services in their mosque & temple respectively.

13. The heir-apparent of Wadhwan accompanied by his younger brothers visited Maliya from Vardusar where they had been with their mother at the invitation of the Thakor Saheb.

14. Mr. Jaysukhram Laxmiram Parghi continued as Kamdar during the whole year.

CHAPTER II

Land Administration.

Revenue & Settlement

15. The Chokhabhag system of recovering State share of produce in kind from cultivators continues and is found to work satisfactorily.

16. The rains during the last monsoon were not sufficient and unevenly distributed and consequently the Kharif crops had begun to wither and what little remained was damaged by the Mianas through their naturally lawless behaviour. The late rains in the beginning of October revived hopes and cultivators tried to raise Rabi and irrigated crops. What

remained of the cotton crops was expected to give some return, but sad to state that in the beginning of February frost damaged these crops & very poor out-turn is likely to be realized from it. The Vero (levy in cash) has had to be suspended partially and fully according to circumstances, on this account. Thus the revenue for land during the current year is likely to be 4 annas in a Rupee, very much below the ordinary income, consequently in order to assist needy cultivators and Mianas, Tagavi in shape of Kos, Varat, seed and food grains was freely distributed, and Test Works opened to give work to the Mianas who had no Wadis and were in need of work. This has of course told heavily on the scanty resources of the State & hence a fresh loan of nearly Rs. 100000/ shall have to be taken from the Imperial Government.

Land Experiment

17. Under the circumstances therefore no experiment was possible this year on the Karadia & Sim Bandhs. Attempts will, however, be made to repair the Bandhs when the saltish moisture has dried up.

CHAPTER III

Legislation.

Legislation

18. Besides the rules and regulations enacted by the State for itself, the Courts of the Taluka are guided by the spirit of the British Laws in force. Appendix II contains the information in this connection.

Military Force.

19. The Taluka does not maintain any Military force.

Police.

Police

20. The strength of the Police for the year under report is the same with a slight change viz, one camel sowar's post was reduced and 3 constables appointed instead. 5 more temporary city Police men have been engaged to assist the Regular Police on account of the scarcity year. The ratio of Police to population is 3·9 per thousand and to area .46 per square mile. The total cost during the year was Rs. 13794 as against Rs. 14066 in the preceding year. Mr. Ramchandra Ganpatram Agency Head Constable was in charge of

the State's Police upto 4th October 1915, and he having reverted to Agency Service, Head Constable Dosabhai Nasarvanji was appointed State Fouzdar instead, his services having been obtained by the State as loan from the Agency. The working of the Police seems satisfactory. Appendix IV contains details of the strength, expenditure, discipline & education of the Police during the year under report.

Working of the Police

21. Appendices V, VI & VII deal with the working of the Police. The percentage of convictions to the number of accused sent up for trial was 55-5 as against 62·33 in the preceding year. The percentage of property recovered to that stolen during the year under report works out to 63·95 against 60·65 during the year preceding. A comparison of the strength of the Police of the State with that maintained by other States having similar status, revenue and population will show that this State has to maintain a comparatively larger number in order to maintain efficiency as well as to keep the lawless and mischievous Mianas under proper control.

Village Police

22. The total number of village Police is 67 of which 58 are paid in cash, while the remaining 9 have got land on service tenure. Out of the total number, 17 are designated "the City Police Men" who serve in Maliya town under the supervision of the State Fouzdar while the rest are distributed in the different villages of the State in proportion to their respective dimensions, and are under the direct control of the Vahivatdars of the Mahals. Out of these, 48 men are armed with guns while the rest have swords & knives. In addition to Revenue & Chokidari duties they have to assist the Regular Police in the prevention and detection of crimes:—

Criminal Justice.

Criminal Justice

23. The numer and constitution of the Criminal Courts of the Taluka during the year under report continues to be the same as in the preceding year viz:—

1. The Hazur court. This Court exercises all the powers of a Fourth Class State of the Kattyawar Agency and hears appeals against the decisions of the subordinate Courts.

II The Court of the Maliya Nyayadhish. This Court exercises the powers of a First Class Magistrate.

III. The Court of the Khakhrechi Vahivatdar. This Court exercises the powers of a Third Class Magistrate. Appendix VIII shows the work done by these Courts during the year under report.

Criminal Appellate work

24. Appendix IX, gives details of the work done during the year under report by the Hazur Court which will be deemed satisfactory.

Civil Justice.

Civil Justice.

25 There are 3 Civil Courts in the State.

I The Hazur Court. It hears original Civil Suits upto the value of Rs. 10000/- This Court also hears appeals against the decision of the subordinate Courts.

II The Maliya Nyayadhish Court hearing original suits up to the value of Rs. 5000/-

III The Court of the Vahivatdar of Khakhrechi is empowered to hear original suits upto the value of Rs. 250/- of the people of the villages of the Khakhrechi Mahal. Appendix X shows the original civil work done by the different Courts of the Taluka and the nature and the value of the suits filed and disposed of, during the year under report.

35 Suits were filed during the year under report as compared with 47 Suits filed in the year preceding, while the number of suits disposed of was 26 as against 49 in the previous year, on account of a scanty year the civil work was comparatively less. The value of suits instituted during the year under report was Rs. 5438-12-1 as against Rs. 8202-1-3 during the previous year. The number of cases regarding landed property was 1 against 9 in the preceding year. The average duration of suits was 1 month and 9 days.

Execution of Decrees

26. Appendix XI contains the details regarding the number of decrees in balance at the commencement of the year, the number filed during the year, the number executed during the year, and the number remaining in balance at the close of the year. There were none in balance from the past year, while 28 were filed during the year under report, as against 68 filed during the previous year. The number remaining undisposed of at the end of the year was 8. This is due to the fact that the year turned out to be one of acute scarcity and hence no execution proceedings can of course be allowed.

27. Appendix XII furnishes details regarding Appellate Civil work for the year. Of the total number of appeals on the register 4 were disposed of during the year, as against 5 disposed of in the year before, leaving 5 in

balance at the end of the year. This also is due to scarcity prevailing in the Taluka on account of scanty rainfall and frost bite. The average period taken up for 1 appeal comes to 7 months and 13 days.

Extradition

28. 32 Demands were made upon the Taluka as against 3 during the previous year. The demands were from the States of Cutch, Nawanager, Dhrangdhra and Morvi. In all 32 persons were surrendered. One of the demands of the Nawanager State had remained in abeyance at the end of the year, the accused having appealed to the Agent to the Governor, against the order of surrender passed by the Political Agent Halar, but latterly, his appeal has been disposed of and the two will be surrendered and the third is murdered in a fight between the Mianas on account of a trivial matter. 4 have been surrendered to this State.

Prison

29. There is one prison at Maliya and one lock-up at Khakhrechi. The Maliya Nyaydhish is Ex-officio Superintendent of Maliya Jail. Appendix XIII contains particulars about the Maliya Jail. The number of prisoners admitted into the Maliya Jail during the year under report was 257 as against 131 in the previous year. The health and condition of the Jail during the year is good, and expense was Rs. 818-0-11 as against Rs. 887-12-7 during the year before.

Registration

Registration

30. 170 Documents of the aggregate value of Rs. 44165-8-0 were registered during the year under report, as against 125 of the valueof Rs. 30282-3-0 during the previous year. The registration fees realized during the year was Rs. 324 as against Rs. 239 in the previous year. On account of a bad year more documents were registered for getting money by those who did not go to the Test Works.

Municipal Administration

31. Appendices XIV & XV furnish details in this connection. The Taluka does not maintain a regularly constituted Municipality but the State has made arrangements at its own expense to clean and light the principal thorough-fares, Appendix XVI shows the amount spent in this connection during the year under report to be Rs. 962 as against Rs. 951 during the previous year. The State Medical Officer supervises the Municipal work of the town proper.

Forest

32. There is no forest in Maliya Taluka. However, efforts are being made to protect Babul trees that grow up on Padtar lands on the bank of the Machhu river and in fallow lands.

33. There is no regular Public Works Department in this State. Necessary works and repairs were done under the supervision of the State Surveyor under the general control of the Kamdar. Appendix XIX shows the details of such works done during the year under report.

Public Works

34. On account of scanty rainfall and consequent poor out turn of crops test work had to be taken up to assist the Mianas who are the first to feel the pinch and the services of an Overseer from the Agency Public Works Department have been obtained and to assist him in keeping the Mianas under proper control one Miana Controling Officer has also been appointed on a reasonable pay. The total expenditure incurred during the year (31—10—15) amounted to Rs. 3811-10-0. The cultivators are given food grains and cash for fodder to keep them at their very homes to take care of their cattle.

Test Work

35. There are 3 Post Offices in the Taluka. 1 Maliya 2 Khakhrechi and 3 Wadharva. There is a Telegraph Office combined with the Post Office in Maliya.

Post & Telegraph Offices

36. There is no Mint in the Maliya Taluka and British currency is in general circulation.

Mint

37. The license under certain stipulations and privileges was granted to enterprizing Bombay Merchants to erect a Ginning Factory at Khakhrechi. A building for the same is in course of construction and Machinery is on its way to Khakhrechi. When the building is completed and Machinery is duly arranged, and begins to work the factory will be a blessing to the merchants, who purchase cotton of the Taluka, as it will materially reduce the transhipment charges and in case Halvad Dhrangdhra Railway is extended to Maliya via Khakhrechi, it will greatly enhence trade since cotton in that case can directly go to Bhavnagar. The State has given a Monopoly to the Merchants that the State would not construct or allow others to errect a Ginning factory during a period of ten years.

The Ginning Factory

38. Appenpix XX gives details of the agricultural stock of the Taluka. The stock is in good condition and sufficient assistance being given to needy cultivators and Mianas in the shape of seed & food grains. A large quantity of grass is also purchased by the State at a heavy cost for the same purpose, but as no demand has been registered it has been stored up for the present in Rajkot in the State's Uttaro there, and will be disposed of if buyers are forthcoming since the rates proposed by some are half of the original cost at which the grass was purchased, cut, baled conveyed and stacked in Rajkot.

Agricultural Stock

CHAPTER IV

Production and Distribution.

Weather & Crops

39. The rainfall for the whole season was 11 inches 40 cents as compared with 17 inches and 72 cents in the previous year. The average rainfall of the past 5 years being 16 inches 96 cents. The rain fall was very scanty and unevenly distributed as there was practically no rain in August and 3 weeks of September and as a result almost all the Khariff crops had withered away and the cotton crops also suffered to a large extent, and what little remained of this was damaged by the Mianas by grazing their cattle on account of their lawless and unruly behaviour. The Rabi crops sown also did not thrive well as there was not sufficient moisture. The Juwar & Till did not sprout out at all. This State of things was aggravated by frost bite and thus the total out-turn for the current year has been very much below the normal i. e. only 4 annas in a Rupee.

Wages & Labour

40. The demand for labour continued throughout the year, and the field labourers rates remained high. The prices of food grains have risen on account of this year being one of scarcity and being away from the Railway Station. The Miana labourers are engaged provided others are not obtainable, because they are sure to take away something at the time of departure.

CHAPTER V.

Revenue and Finance.

Revenue

41. The total gross revenue for the year including adjustments, remissions and recoveries of outstandings and Takavi &c. amounted to Rs. 160206 as against Rs. 163501 during the previous year Rs. 20000 were drawn from Government as loan during the last revenue year, on account of scarcity, and further amounts will be drawn as necessity arises. Excluding adjustments and other such items the net cash realization during the year amounted to Rs. .41652 as against Rs. 149351 in the previous year. Most of the recoveries to be made from the Mianas such as Udhad did not come as Kajarda had not good rain last year ~~before~~ too.

Debts

42. The following table will show the details regarding the indebtedness of the Taluka at the end of the year 1971 St. ending on 31-10-15 as well as on 31-3-16.

No.	Nature of the debt.	Due on 31–10–15	Due on 31–3–16
1	Old Government Loan of 1956 and 1958.	243–0–0	243–0–0
2	New Government Loan of 1968.	26317–0–0	26317–0–0
3	New Government Loan of 1971.	20000–0–0	20000–0–0
4	Local Fund Loan.	213081–0–0	213081–0–0
5	Old Cutch debt	38229–0–0	38229–0–0
6	Vavania Port trust Fund.	17500–0–0	17500–0–0
	Total.....	315370–0–0	315370–0–0

Repayment

43. The revenue of the year has been less during the year, yet Rs. 32635–11–9 were paid towards repayments of debts &c. in the beginning of the official year under report and Rs. 20000/ had to be drawn from Government on account of the scarcity.

44. The State has 2/5 share in Kataria in Vagad in Cutch, but this year the Vahivatdar, a son of a good old Luvana servant misappropriated State recoveries amounting to Kories 8070 and left off State services. The State having no Jurisdiction had to wait, looking to the past services of his old father, and negotiations are in progress for the recovery and settlement of the money deposited with him.

CHAPTER VI.

Hospital and Dispensary

45. The Maliya Dispensary continued to be in charge of the Sub Assistant Surgeon Mr. Mangalprasad Revashanker Chhaya whose services have been obtained on loan from the Agency.

Sanitation

46. The Sanitation of the town is supervised by the State Medical officer and the cleaning of streets in Maliya and Khakhrechi is done by a staff of sweepers. The general health of the people was good and there was no epidemic.

Vaccination

47. The Vaccination work was carried out as usual under the supervision of the Agency Surgeon 446 children were vaccinated during the year under report as against 511 in the

preceding year. The work is less since the Vaccinator stopped a few days only in this Taluka. There were 2 revaccinations this year against none during the last year.

Births & Deaths

48. There were 409 births as against 555 in the preceding year. The ratio being 33·7 per thousand against 45·74 for the previous year. The number of deaths registered was 209 as against 295 during the preceding year. The ratio being 17·24 as against 24·31 per thousand for the preceding year.

CHAPTER VII

Education.

Education

49. Appeedix XXV supplies the information regarding the schools maintained by this Taluka. The number of schools is the same as was shown for the last year viz 7 for boys and 2 for girls. The total number of boys receiving education in all the schools during the year under report was 407 while that of the girls was 110 as against 376 and 110 during the preceding year. The Girl School at Maliya requires reorganisation since the Head Mistress is not doing her work properly. The Composite School does not show signs of prosperity and good work with the advent of time, since not a single person is available for State employment for which they are primarily eligible.

50 As reported in the last year's annual report primary education was made free in all the schools and hence there were no fee receipts during the year under report. The total expenditure on account of education during the year under report was Rs. 3268 as against Rs. 3180 in the previous year. Though the inspection charge this year has been less by Rs. 100 than that during the last year, Rs. 128 more have been spent after deadstock articles and there are increases by small amounts under different heads and hence the total has gone up by Rs. 88 over the previous year. In addition to the above Rs. 200 have also been sanctioned for science apparatus for the Composite School for the use of the higher standard boys.

CHAPTER VIII.

Library

51. There is a small Library in Maliya maintained by the Taluka. It has been registered according to the rules in force in that connection.

52. There is no Printing Press here nor is any Newspaper published in the Taluka.

Printing Press

53. As declared at the installation ceremony Darbar of the Thakor Saheb, customs duty is levied only once, which has given some impetus to trade and the Sayer revenue which amounted to Rs. 39106-9-7 during the previous year has risen to Rs. 41035-6-8 during the year under report as shown below.

Customs.

Opium.	...	...	...	Rs. 1643-0-0
Liquor.	...	...	...	Rs. 751-0-0
Salt.	...	...	...	Rs. 276-0-0
Customs.	...	...	...	Rs. 37175-0-0
Bhang and Ganja		...	...	Rs. 71-0-0
Bham.	...	...	...	Rs. 1066-0-0
Other Farms.	...	...	...	Rs. 53-0-0
			Total	Rs. 41035-0-0

Excise Revenne.

54 Appendix XXI furnishes details regarding excise revenue of the Taluka.

Receipts and Expenditure

55. Appendix XXII gives full details of the receipts and disbursements of the Taluka for the year under report. It will appear that rigid economy is practised under various heads where ever practicable, notwithstanding a large outlay on account of purchase of grass, and payment to Mianas, Cultivators and Bhayats for Kos, Varat, Seed and Food grains and cost of the test work *&c.* amounting to Rs. 43005 the year closed with a balance of Rs. 87653 including the new Loan of Rs. 20000 drawn in the last days of October is a self evident truth of economical management of Thakor Saheb and his Kamdar and State's working Staff.

General Remarks

56. In conclusion, I am really happy to say that the State is largely indebted to Colonel C. F. Harold Political Agent Halar for rendering all possible assistance and sound advice in the various questions that arose to the best advantage of the Taluka,

Maliya Hazur Office.

JAYSUKHRAM L.

Kamdar Maliya.

TO,

Thakore Saheb Rajsinhji of Maliya.

Respected Sir,

In compliance with your orders, I have the honour to submit the Annual Administration Report of this State for the year of 1916-17 A. D. (St. 1972).

Maliya Hazur Office.
10th April 1917.

I have the honor to be,
Sir,
Your most obedient servant
JAYSUKHRAM L. PARGHI,
Kamdar Maliya.

ANNUAL

ADMINISTRATION REPORT

OF THE

MALIYA State.

For the year 1916-17.

CHAPTER I

GENERAL AND POLITICAL.

Area...	...	...103 Square Miles.
Population ...	...	...12,134 Souls according to census of 1911.
Gross Revenue	...	...Rs. 138620 based on an average of past 5 years.
Baroda Tribute.	...	...Rs. 1,182.
Junagadh Jortalbi....		...Rs. 185.
		Total Rs. 1,367.

The Ruling Family.

2. Thakore Saheb Shri Rajsinhji Modji, the Chief is 51 years of age and is a Jadeja Rajput. He was educated at the Rajkumar College, Rajkot. His present wife is a daughter of Jhala Garassia of Malvan, a village under Dhrangadhra State. The Thakore Saheb has 3 sons and one daughter. The eldest Kumar Shri Gumansinhji the heir-apparent is 31 years old, and is well educated at the Rajkumar College, Rajkot, and resides with the Thakore

Saheb of Rajkot, as his Honorary Personal Assistant. He had been with his family members to Bombay in January 1917, for the treatment of his eldest Kumar Shri Harischandrasinhji who had an accident. He had been to Maliya in February last, on the occasion of the marriage of his sister Kunvarishri Devkunvarba Saheb with H. H. the Maharaja Saheb Prithi sinhji of Banswada (Mewar). K. S, Gumansinhji's youngest daughter died in August last.

3. K. S. Bharatsinhji the second son is 23 years of age. He was a Deputy Superintendent of Police in Government Service at Jacobabad [Sind] as mentioned in the last year's Report, but since he kept indifferent health he had had to resign the appointment and was allowed to do so from 10th May 1916.

4. K. S. Balvirsinhji the third and the youngest son is 15 years old. He studies at the Talukdari Garassia School Wadhwan Civil Station, and his progress is reported to be satisfactory.

5. K. S. Ranjitsinhji son of K. S. Nathaji cousin of the Thakore Saheb having completed the second standard in the Composite School Maliya, was sent to be admitted in the Garassia School Wadhvan and is also doing well.

6. Correspondence is in progress for the admission of K. S. Harischandrasinhji heir-apparent's eldest son in the Rajkumar College Rajkot in July next, when the College reopens.

7. Ba-Ma Saheb Subjiba the widow of the late Thakore Saheb Modji, resides at Khakhrechi and draws the usual Jiwai. She kept good health throughout the year.

Tour of Thakore Saheb.

8. The Thakore Saheb accompanied by the Kamdar had been to Rajkot in September 1916, to see Colonel C. F. Harold Political Agent Halar Prant off. Again after the celebration of the marriage of Basaheb they went to Kataria a shared village of Maliya on the other-side of the Run and visited Lakadia, Jhanghi, Wandhia, Laliana, Vajpasar, Withrue, Raper, Rav, Ravechi Mata, Kidianager, & Gangodar, to see his relatives, since, he had never gone there. While in Vagad they had the opportunity of meeting Colonel Harold and H. H. the Maharao Saheb of Cutch at Lakadia and Jhanghi respectively.

Visit to Muli.

9. The Thakore Saheb had been to Muli on the Janamastmi holiday in August, and stayed there for a week, since he is a disciple of that sect.

Political Relation.

10. The Political relations with the neighbouring States of Cutch, Morvi and Dhrangadhra were cordial as before. The Thakore Saheb had personally gone to Dhrangadhra and Morvi to request H. H. the Rajsaheb and H. H. the Thakore Saheb respectively to request them to grace the marriage day of his daughter by their presence.

Visit of the Political Agent.

11. Lt. Colonel H. W. Berthon Political Agent Halar Prant arrived at Maliya on the 7th December 1916 and had his camp till the 13th Idem. On the morning of the 11th December three functions viz; the opening ceremony of the Harold Gujrati School was performed by Mrs. Berthon, and the opening ceremony of the Ginning factory and laying the foundation stone of the Berthon Bundh were performed by Colonel Berthon at Khakhrechi. A huge Shamiana was erected in the premises of the Dharamshala, wherein a large number of Bhayats, Officers, Shethias, Cultivators and others had attended to witness the ceremonies.

12. The Thakore Saheb who had come with his Kamdar, the previous day. received the distinguished guests and when all had seated Mr. Jaysuhkram L. Parghi the Kamdar read the following speech on behalf of the Thakore Saheb.

Colonel and Mrs. Berthon, Bhayats, Officers, and Gentlemen:—

1 " The object for which, you have all assembled here is as known to you a laudable one, as it relates to the opening of an important Institution for educating the future generations of Khakhrechi, a village next in importance to Maliya. There was a School-Building but since, its foundations settled and the building gave way three years ago, it was declared unfit for housing children and the boys were, therefore, at once removed to another building and notwithstanding the embarrassed financial condition of the Taluka, and the awful clutches of scarcity, I took upon myself the early construction of a descent School House, which would accomodate about 200 boys.

2 The number on the Roll today is 132 however, in order to avoid the necessity of early extension in near future, liberal margin has been made for more boys, looking to the fact, that the numbers are fast increasing on account of remission of School fees in 1914.

3 The School was first opened on the 16th August 1869 with 33 boys. The number is just four times of what it was at its opening.

4 The School consists of 3 rooms, 2 verandahs, and 2 small side rooms, and is so devised that the Head Master can exercise proper supervision over the decipline of boys, and over the work of his subordinates.

5. The cost of this large edifice is Rs. 4000 approximately including the old materials used therein. It would not be out of place here to express the idea of associating the name of Colonel C. F. Harold, who took a keen interest in the welfare of my Taluka, and who always assisted me with his kind and sympathetic advice, and therefore it will be named " THE HAROLD GUJRATI SCHOOL " to keep his name afresh in my as well as in the momory of my people.

6. I must not fail here to express my sincere thanks to you COLONEL and MRS. BERTHON, for responding to my invitation and taking the trouble of undertaking a rough journey by Katchha roads to put me under a debt of gratitude. I now request you Mrs. Berthon to declare the HAROLD GUJARATI SCHOOL open for the purpose for which it is meant."

The Translation of it was read by the Kamdar.

The School was declared open by Mrs. Berthon and all went in and inspected the Building. Then Colonel Berthon gave the following reply:—

" Thakore Saheb and other Gentlemen,

I must thank you on behalf of Mrs. Berthon for having asked her to perform this ceremony. It is now nearly 10 years since I first had the pleasure of meeting you. Then you were the Heir-Apparent of this State, and the future prospects were indeed gloomy, owing to the great financial difficulties.

2. Now, you are the Ruler, and the horizon has begun to clear. Your efforts have been and are great to discharge your obligation to Government. But in spite of them you have not for-gotten your duty towards your subjects.

3. Content with a simple life yourself, You are devoting your energies and resources to your people. I see many signs of progress everywhere. I congratulate you and I congratulate your subjects on having such a thoughtful and benevolent Ruler.

4. Also thanks to the people of Khakhrechi for their subscriptions to the War Fund."

The translation of Colonel Berthon's Speech was read over by Mr. Jaysukhram L. Parghi Kamdar Maliya.

13. When all had resumed their seats, Mr. Jaysukhram L. Parghi read the other speech relating to the Ginning Factory and the Berthon Bundh on behalf of the Thakoresaheb.

Colonel and Mrs. Berthon, Bhayats, Officers and Gentlemen:—

1 I am not going to detain you here any longer, but would like to give a short history of the Ginning Factory and the " Berthon Bundh " for which we have also come here.

2 Attempts were in progress for the construction of a Ginning Factory at Khakhrechi, but the question was not definitely settled during the Management. After my Installation, I tried hard and fast for it, and eventually succeeded in having that aim accomplished. Certain merchants of Bombay undereook to erect it on certain conditions with a monopoly, that for ten years all the cotton produced in the Taluka should be ginned in the Khakhrechi Ginning Factory. This fact has of course given impetus to trade and the levy of one Dan (Customs duty) has materially assisted and increased the trade of Khakhrechi, and provided the Taluka is connected with a Railway, its trade will surely increase by leaps and bounds,

3 I am really thankful to you Colonel Berthon for kind assistance you have rendered in my sickness and for the sound advice you have so kindly, given to me from time to time, when you were in the Prant some years back.

4 You will, at the same time be pleased to know that no new taxation has been imposed, however, the revenue is increasing by care and legitimate means.

5 Long since, I have thought of constructing a strong Bundh for keeping sufficient water in both the Tanks which will be a great help to town people. Ginning Factory and for irrigating fields.

6 The Proprietors of the Ginning Factory requested me to open it, but I reserved it for you, Colonel Berthon since I am under your great debt of gratitude and I do not see any other way to express my appreciation than by requesting you to declare the Ginning Factory open, and to lay the foundation stone of the BERTHON BUNDH, that your worthy name may also remain in my memory.

The translation of it was also read by the Kamdar. Colonel and Mrs, Berthon, Thakore Saheb, Kamdar, officers and Bhayats then proceeded to the Ginning Factory and declared it open.

14. Then all assembled went to the " BERTHON BUNDH " and Colonel Berthon performed the usual ceremony and said, it was well and truly laid. After distribution of Uttar Pan & Sopary the party dispersed. Great enthusiasm prevailed as the assemblage was first of its kind in Khakhrechi.

Prizes Distribution

15. The Political Agent distributed prizes on the 9th December, to the students of boys and Girls Schools of Maliya. He also visited the jail, Dispensary and Police lines, and expressed his satisfaction for all he saw. He paid a return visit to Thakore Saheb. On the 12th he visited the Composite school a second time, and examined the boys in Geography, History, Reading and Arithmetic. He was dis-satisfied with the answers given by boys particularly in Geography and History for which the Head Master was warned to pay more attention to his duties.

War Contribution,

16. The Taluka has continued to pay its quota to the War Contribution. Similarly the people of Khakhrechi and Maliya sent their subscriptions according to their might.

War Anniversary.

17. The Thakore Saheb, the Kamdar, officers, Shethias, Cultivators Mianas, and other residents of Maliya had assembled in the afternoon of the 4th August 1916 in the Swaminarayan Mandir to mark the second anniversary of the declaration of the great War and offered prayers for the speedy restoration of peace with triumph of the British Raj.

War Loan Contribution.

18. Not-with-standing the indebted condition of the Taluka the Thakoresaheb with his usual firmness of mind and as a sign of his deep loyalty, purchased War Loan from his private purse and asked his officers to follow his example and promised to lend them six months' pay in advance from the Treasury, for the purpose and the money thus lent should be repaid by 10 instalments. The Bhayats, and Shethias of Maliya and Khakhrechi and other villages subscribed according to their means and the amount came approximately to Rs. 20000/.

District Tour.

19. The Thakoresaheb in company of the Kamdar visited Khakhrechi, Rasangpur, Haripur, Wadharwa and other villages and fully attended to the wants of the people and promised to take one share less in wheat provided they made wadis on the banks of the Machhoo.

20. The Birthday of the Thakoresaheb fell on the 29th January 1917. In the morning a Darbar was held at the Madh Medi and officers who did good work were given rewards and prisoners were sumptously fed and alms were distributed to the poor.

Thakoresaheb's Birthday.

21. The Kamdar had twice been to Ahmedabad to see the Settlement officer thereof, in connection with the removal of the attachment over Thakoresaheb's cousin K. S. Pathubha's estate at Rojka under Dhandhuka, and on Thakoreaheb's agreeing to keep his own man as his Kamdar and on his undertaking to exercise general supervision over the Jagirs affairs, the Talukdari Settlement officer was pleased to hand over to K. S. Pathubha his Jagir as an experimental measure.

Trip of the Kamdar in Gujrat.

22. The marriage of Kunvarishri Devkunvarbasaheb was performed with great eclat on the 22nd February with H. H. the Maharajasaheb Prithisinhji of Banswada. The Marriage party came here in the evening of the 21st February and was received at Fatepur with due honours befitting the high position of that State and its ruler and was brought to Maliya in a well organised procession. The whole town was tastefully decorated with arches, buntings, and ever-greens. The whole town assumed a gay appearance, since this was the first time that such a high personage had come to Maliya for marriage. For four days the town was full with men from the surrounding villages. The Marriage ceremony was performed in the Rajgadhi at midnight on the 22nd.

Kunvarishri Devkunvarba Saheb's marriage.

23. On the 23rd the Mahajan of Maliya presented an address of wel-come to the Maharajasaheb, which was read in English and Vernacular by Mr. Jaysukhram L. Parghi on behalf of the Mahajan.

His Highness Rai Rayn Maharawal Saheb Shri
Prithisinhji Bahadur of B a n s w a r a.

Maharaja Saheb:—

We the Citizens of Maliya, take this opportunity to extend to your Highness Maharaja Saheb, a very warm and hearty welcome. The pleasure we feel in doing so, is heightened by the auspiciousness of the occasion.

3. It is a union of the two ancient Puranic, and Historic Houses of Rajputs the Shurya-Wanshi Shishodias and the Yadu-Wanshi Jadejas, both these houses claim a distinguished origin, and the world is ringing with their exploits from the days of the Ramayan and the Mahabharat.

3. Rana Pratap recalls to our mind, Rajput valour, bravery, unbending spirit and administrative virtues Your Highness, family has produced various self making and self establishing Rulers of very good renown.

4. Your Highness has received a very high education at the Mayo College, Ajmere and Your Highness, keen sports man like qualities and high qualities of head and heart, have enabled Your Highness, close application to internal administration and improvement in Your Highness State are so highly spoken of that they well be-speak the earnest of Your Highness, bright future, and prosperity of Your Highness State. We know full well that our beloved Thakoresaheb has spared no plains, to equip the Kunvari-saheb with such sound religious education and training worthy of a Royal Princess and befitting her exhaulted position in life.

5. The first union of such worthy scions of these two illustrious prime Rajput Houses, will stand as the most memorable event in the History of Maliya. We feel proud of the event, and we beg to tender warmest and most sincere congratulations to the HAPPY PAIR added with a devout prayer to the ALMIGHTY GOD from the bottom of our hearts that the princely couple may live a long prosperous and happy life.

24. The Maharaja Saheb's reply was read over by Mr. Nandlal Banerji Forest Officer and its translation by Mr. Hariram Bhaishanker Medical Officer Banswara.

THAKORE SAHEB and GENTLEMEN,

I thank you heartily for the very cordial welcome you have extended to me, assuring you at the same time that this thank is not one of those old trodden conventional thanks, but is the outcome of a sincere heart.

2. I have to thank you again for your very kind reference to my illustrious ancester Maharana Pratapsinhji, since it can not but make me look back to him and his with pride and I claim your indulgence, Gentlemen, to assure you that I feel proud of the alliance knowing as I do that Maliya is the offshoot of one of those old lines of Rajput warriors whose valour and prudence rang through out the world and traces of which history still maintain in the records.

3. Gentlemen, it is too good of you to speak so highly of my administrations and qualifications but I am afraid I am ill deserving of those praises.

4. I know how very deficient I must be in the intricate ways of administration, for the acquirement of which as you all perhaps know, there

is no Royal short cut, but can only be attained by a long and thorough course of probation and true guidance.

5. By the Grace of the Almighty God I shall find in the person of my respected father-in-law, one, who shall ever be a guide to me with his hard earned experience.

6. In conclusion Gentlemen, I thank you again and over again for your very kind and cordial reception.

Next prizes were distributed to the school going children at the hands of the Maharaja Saheb. After distribution of sweets to the children, Attar Pan Sopari to those attending the Darbar, and the assemblage dispersed under great rejoicings. The guests had attended the great dinner, after witnessing the fireworks at the Traveller's Bungalow.

26. On the occasion of the marriage deputations had come from Cutch, Bhavnagar, Jamnagar, Chhotaudepur, Dhrangadhra, Chuda, Vankaner, Morvi, Rajkot, Vadod, Muli, Lathi, Chachka, Sayla, Kotda, Dhrol &c, A large number of Charans Bhats &c. had assembled since this was the first union between the Sishodia and Jadeja clans of Rajputs.

CHAPTER II.

LAND ADMINISTRATION.

Revenue and Settlement.

26. The Chokhabhag system of recovering State share from cultivators in kind prevails, and is found to work well and satisfactorily.

27. Though the rain on the whole was below normal however, the outturn of Kharif and Rabi crops was good and the cultivators were in a position to pull on well with their means; and most of them, were able to pay off the sums advanced to them in Tagavi last year.

Land Experiment.

28, This year, there was not sufficient water in the Karadia Tank on account of drizzling rain, and hence it was not possible to drain off saltish earth that had collected at certain places. However, on the whole signs of improvement are perceptible on the Khirai and Chikhli sides, since, grass grow well on once barren lands. It is hoped that in two years' time much land around the Sim Bundh as well as in the Karadia tank can be brought under the plough provided the rains are timely and ample. Attempts will however, be made this year to drain off bad saltish water from the Karadia tank in order to prevent its collection in the low lands.

29. The Taluka has 2/5 share in Kataria in Vagad, where a special Vahivatdar is maintained for revenue collections. The late Vahivatdar who had misappropriated income of the village has requested for an amicable settlement, and the matter is now under consideration.

CHAPTER III

LEGISLATION.

Legislation.

30. The Courts of the Taluka are guided by the British Laws in force. It has also enacted a set of rules and regulations for the smooth working of the Courts. However, if a difficulty arises the spirit of the Imperial laws is followed in disposing it of. Appendix II supplies the information on this point.

MILITARY FORCE.

31. No military force is maintained by the Taluka.

POLICE.

Police.

32. The strength of the Police for the year under report is the same. The ratio of police to population is 3·9 per thousand and to area ·46 per square mile. The total cost during the year was 15341 as against 13794 in the preceding year. The increase in expenditure was due to the bad year, since additional hands had to be engaged for proper supervision, and also parties were sent to bring back the Mianas who were found wandering in other parts of the country with their family members and cattle. Mr. Dosabhai Nasarvanji was in charge of the Police till relieved by Mr. Ramchandra Ganpatram, whose services have been obtained from the Agency on the 1st of February 1917. The working of the Police seems satisfactory on the whole.

Appendix IV gives the details of the strength, expenditure discipline and education of the Police during the year under report.

Working of the Police.

33. Appendix V, VI and VII deal with the working of the Police. The percentage of convictions to the number of accused sent up for trial was 55·84 as against 58·14 in the preceding year. The percentage of property recovered to that stolen, during the year under report works out at 55·58 against 63·85 in the preceding year. It is a well known fact that the Taluka has to maintain a larger number of police men in comparision with other Fourth Class Talukas, since one fourth of its population consists of Mianas a very dangerous and notorious class of men who require constant supervision, and efficient watching to prevent them doing mischief.

Village Police.

34. The total number of village police is 63 of which 54 are paid in cash, whereas the remaining 9 have got land for service. Out of this number 13 are called "The City Police Men" who serve at Maliya under the supervision of the Fouzdar; while the rest serve in the villages under the control of the Vahivatdar, and so far as guarding of villages and the prevention and detection of crimes are concerned they are under the order of the Fouzdar. Out of these 48 men are armed with guns while the remaining number have swords and knives.

CRIMINAL JUSTICE.

Criminal Justice.

35. The number and constitution of the Criminal Courts of the Taluka during the year under report continues to be the same as in the preceding year viz:—

I. The Hazur Court. This Court exercises all the powers of a Fourth Class State of the Kattyawar Agency and hears appeals against the decisions of the subordinate courts.

II. The Court of the Maliya Nyayadhish. This Court exercises the powers of a First Class Magistrate.

III. The Court of tha Khakhrechi Vahivatdar. This Court exercises the powers of a Third Class Magistrate. Appendix VIII. shows the work done by these Courts during the year under report.

Mr. Shankerprasad A. Baxi is working as Nyayadhish since 5th May 1916.

Criminal Appellate work.

Appendix IX gives the details of the work done by the Hazur Court.

CIVIL JUSTICE.

Civil Justice.

36. There are 3 civil courts in the Taluka.

I. The Hazur Court. It hears original Civil Suits upto the value of Rs. 10000. It also hears appeals against the decisions of the subordinate Courts.

II. The Maliya Nyayadhish Court hears original suits upto the value of Rs, 5000.

III. The Court of the Vahivatdar of Khakhrechi is empowered to hear original suits upto the value of Rs. 250 of the people

of the villages of the Khakhrechi Mahal. Appendix X shows the original Civil work done by the different Courts of the Taluka and nature and the value of the suits filed and disposed of, during the year under report.

37. 38 suits were filed during the year under report, as compared with 35 suits filed in the year preceding, while the number of suits disposed of was 38 as against 26 in the previous year. The value of suits instituted during the year under report was Rs. 728-13-11 as against Rs. 5438, 12-1 during the previous year. The number of cases regarding landed property was 4 against 1 in the preceding year. The average duration of suits was 3 months and 10 days.

Execution of decrees

38. Appendix XI contains the details regarding the number of decrees in balance at the commencement of the year, the number filed during the year, the number executed during the year, and the number remaining in balance at the close of the year. There were 8 in balance of the past year while 26 were filed during the year under report, as agaist 29 filed during the previous year. The number remaining undisposed of at the end of the year was II. Some of these were recently instituted while others were against cultivators who had very little to give their creditors.

Civil appellate work.

39. Appendix XII furnishes details regarding Appellate Civil work done by the Hazur Court during the year. Of the total number of appeals on the register 4 were disposed of during the year as against 4 disposed of in the preceding year. The average period taken up for one appeal came to 1 year, 1 month and 2 days since, they were of old standing and last year was one of scarcity.

Extradition.

40. II demands were made upon the Taluka as against 32 in the previous year. The demands were from the States of Navanagar, Dhrangadhra, Dhrol, Chotila and Virpur Kharedi. In all 3 persons were surrendered by the other States to the Taluka.

Prison.

41. There is one prison at Maliya and one lock up at Khakhrechi. The Maliya Nyayadhish is Exofficio Superintendent of Maliy Jail. Appendix XIII contains particulars about the Maliya Jail. The number of prisoners admitted into the Maliya Jail during the year under report was 182 as 257 in the previous year. The health and condition of the Jail during the year was good and the expenditure was Rs. 2234-9-1 as agaist Rs. 818-0-11 during the year before.

REGISTRATION.

Registration.

42. 148 documents of the aggregate value of Rs, 41892 were registered during the year under report. as against 170 of the value of Rs. 44165-8-0 during the preceding year. The registration fees realised during the year was Rs. 311 as against Rs. 325 in the previous year. Two instruments remained unregistered as they were presented on the last day.

Municipal.

43. Appendix XIV & XV furnish details in this connection. There is no regularly constituted Municipality, but the Taluka has made arrangements at its own expense to clean and light the principal streets of the town. Appendix XII shows that the expenditure in this connection was Rs. 893-3-7 as agaist Rs. 962 during the previous year. The Medical Officer supervises the Municipal work of the town.

Forest.

44. There is no forest in the Maliya Taluka, however, efforts are being made to protect Babul trees that grow on the banks of the Machhu river as well as on the fallow lands, the ownership over which is vested in the Taluka.

Public Works

45, There is no separate Public Works Department, but necessary works and repairs were undertaken and done under the supervision of the Vahivatdars and the Surveyor under the general control of the Kamdar. Last year, the Harold Gujarati School was constructed and this year the Berthon Bundh is under construction, which when completed will materiaily assist to the comforts of the Khakhrechi people, where there is a water famine this year. Appendix XIX gives the details of the works done during the year under report.

Post and Telegraph Offices

46. There are 3 Post offices in the Taluka viz, 1 Maliya 2 Khakhrechi and 3 Wadharawa. There is a Telegraph Office combined with the Post Office at Maliya. The general post upto last year used to come via Morvi but the foot line is changed and it now comes via Halvad, Khakhrechi and Wadharawa to Maliya. By this arrangement the Post is received earlier by two hours.

Mint

47. There is no mint and British coins are in general circulation in Maliya Taluka.

Ginniug Factory.

48. The Ginning factory is now in working order. It turns out a good staple, but since there is great difficulty in obtaining water, as both the tanks at Khakhrechi are dry

and the land being of blackish nature, the under ground water is saltish which retards the progress of the enterprizing merchants whose untiring zeal and perseverance left no stone unturned to find out good water, but when they found that the new well water wont serve their purpose, as was anticipated, they have resolved to bring water from river Ghodadri and such other nearer places, to keep the Factory in motion. The Thakore Saheb has with the concurrence of the traders raised the rates by two annas as a special concession, bearing in mind the want of water, the high rates of coals, fuel, and exhorbitant labourers wages prevailing in the surrounding localities.

Agricultural stock

49. Appendix XX supplies details of the agricultural stock of the Taluka. The stock is in healthy condition and it has had no bad effect though the last year was one of scarcity. The cultivators were pursuaded to stack up as much grass as can possibly be saved as a famine reserve and they have listened to the advice, and except a few Mianas all have stacked up grass for future use.

CHAPTER IV.

PRODUCTION AND DISTRIBUTTION.

Water & Crops.

50. The Rainfall for the whole year was 15 inches and 90 cents as compared with 11 inches & 40 cents in the preceding year. The average rainfall of the past five years came to 19 inches and 78 cents. The monsoon set in the later part of June and there were showers in July, but August saved the situation by a good and timely down-pour, but again in September and October there being insufficient rain, there was no cultivation of wheat and gram and the latterly sown cotton crops did not thrive sufficiently well. In Wadharawa and Kumbharia comparatively there was less rain. The tanks of Khakhrechi and Maliya practically remained empty and there was much water distress at Maliya and especially at Khakhrechi. Fortunately there was no frost and looking to the amount of rain this year the outturn of cotton and other crops was comparatively better.

Wages & Labour.

51. The rates of wages of field and other labourers remained high and since the cotton harvest turned out successful the labourers got more than sufficient work and no workers were obtainable in the Ginning Factory at Khakhrechi. The Miana labourers could be got on lower wages but as they have no reputation and being head strong and men of pilfering habits, cultivators and merchants at the first instance, would not like to engage them, so long as others were available on a little higher wages.

CHAPTER V.

REVENUE AND FINANCE.

Revenue.

52. The total gross revenue for the year including adjustments, remissions, and recoveries of out-standings and Takavi &c. amounted to Rs. 169200/ as against Rs. 160206/ during the previous year. Rs. 44378 were drawn from Government as loan on account of scanty revenue. Excluding adjustments and other such items the net cash realizations during the year amounted to Rs. 67227 as against Rs. 141652 in the previous year.

Debts

53. The following table will give the details regarding indebtedness of the Taluka at the end of Samvat year 1972 ending 31-10-16 as well as on 31-10-1917.

No.	Nature of the debt.	Due on 31-10-16	Due on 31-3-17
1	Old Government Loan of St. 1956 1958 and 1968	26983-0-0	1983-0-0
2	New Government Loan of St. 1971	65943-0-0	67117-0-0
3	Local Fund Loan	162064-0-0	165173-0-0
4	Old Cutch Debt	37761-0-0	57461-0-0
5	Wavania Port Trust Fund	17500-0-0	17500-0-0
	Total...	310251-0 0	289234-0-0

Repayment of debts

54. In the revenue year, except Rs. 1362 to Cutch Darbar, no repayment could possibly be made on account of a bad year, but in the beginning of November Rs. 25000 were repaid and Rs. 20000 are to be shortly repaid in repayment of local fund loan. In this year Rs. 70992 were remitted by Government by their G. R. No, 4271 dated 21-7-15. It will be perceived that efforts are made to repay much more in excess of instalments settled by Colonel H. W. Berthon during the British management.

CHAPTER VI.

Hospital & Dispensary

55. The Maliya Dispensary was in charge of the Sub Assistant Surgeon Mr. Mangalprasad Rewashankar Chhaya during the whole year.

Sanitation

56. The Sanitation of the town is looked after by the Medical Officer and the cleaning of streets in Maliya and Khakhrechi is done by a staff of sweepers under the supervision of the Medical Officer and Vahivatdar respectively. The general health of the people was good, and small pox epidemic was checked from its beginning, since, a special vaccinator was obtained from the Agency.

Vaccination.

57. The Vaccination work was carried out as usual under the Supervision and control of the Agency Surgeon, 602 children were vaccinated during the year as against 446 in the preceding year. This year the permanent man has not come since there was small pox epidemic in his charge and hence two special men were sent one after the other and that has of course done immense good since mortality was not so severe comparatively. There were 216 revaccinations during the year against 2 in the preceding year.

Births & Deaths

58. There were 380 Births as against 409 in the preceding year. The ratio being 31·31 per thousand as against 33·7 for the previous year. The number of deaths registered during the year was 322 as against 209 during the preceding year. The ratio being 26·53 per thousand as against 17·22 for the preceding year.

59. There were two cases of accidental fires at Maliya, which were put out at once, since the Thakoresaheb, Kamdar, officers and people at once ran to the spot and brought the fire under control and extinguished it. The damage being of Rs. 250.

CHAPTER VII.

EDUCATION.

Education

60. Appendix XXV. supplies the information regarding the Schools maintained by the Taluka. The number of schools remained the same, as shown last year viz. 7 for boys and 2 for girls. The total number of boys attending schools during the year under report was 429, while that of the girls was 112 as against 407 and 110 respectively during the preceding year. The same remarks holds good this year about the Head Mistress of the Maliya Girls School. The Head Master of the Composite School takes very little or no interest in imparting education to the boys. In December last, when the Political Agent visited his School a second time in company of the Thakoresaheb and the Kamdar the answers given by majority of boys in Geography and History were quite miserable, but since the Head Master did not send his

visitor's book to the Political Agent the remark about his school was made in the visitor book of the Girls School, which was sent for remarks regarding prize distribution, but it refers to his school, since the Political Agent has not visited her school at all. It is necessary for the interest of the boys and the town people that sooner this Head Master is transferred, it is better for them, because no requisitely trained servant is obtained from the local schools though such a large sum is spent by the Taluka for the good of the Ryots. One scholarship was granted to a Miana boy for prosecuting his studies in English, on the Thakore Saheb's birth day.

61. The total expenditure on account of education during the year under report was Rs. 3946 as against Rs. 3268 in the previous year. The reason of such a large increase is due to the fact that additional Dead Stock articles and Science apparatus for the Composite School were sanctioned at the recommendation of the Agency Educational Officer. Also two years' inspection Varad was given this year which showed a large increase.

CHAPTER VIII.

Library

62. There is a small library in Maliya maintained by the Taluka. The Thakoresaheb has sanctioned a further sum for the purchase of new books and English newspapers. The Library has been registered according to the Rules in force in that connection.

Printing Press

63. There is no Printing Press here nor is any news Paper published in the Taluka.

Customs.

64. As declared in the Public Darbar at the time of the installation the Customs duty is levied only once, however, it has increased the customs revenue considerably. This year it is less on account of a scanty year. The following sums were realized under different Heads during the year.

Opium...	...	...Rs.	1146-10-8
Liquor	...	...Rs.	1101- 0-0
Salt ...	...	...Rs.	173- 1-0
Customs	...	...Rs.	13806- 3-3½
Bhang & Ganja	...	...Rs.	25- 0-0
Bham..	...	...Rs.	2018- 0-0
Other farms	...	...Rs.	73-12-0
		Total...Rs.	18343-10-11½

Exercise Revenue

65. Appendix XXI. furnishes details regarding exercise revenue of the Taluka.

Receipts and Expenditure

66. Appendix XXII. gives details of the receipts and disbursements of the Taluka for the year under report. It will appear that rigid economy is exercised under heads of expenditure as will be seen that out of the closing balance of Rs. 52909-9-9 Rs. 44376 were of the Government Loan. This fact evinces the able Management of the Thakoresaheb assisted by his Kamdar and the subordinate staff.

His Imperial Majesty the King Emperor's Birth day.

67. On the 3rd June the Birth day of His Imperial Majesty the King Emperor was observed as a public holiday by closing the offices and schools and by distributing sweetmeats to the school going children. At sun rise the Police paraded on the parade ground and fired a fue-de-joi where the Thakoresaheb and the Kamdar attended. These men were given a handsome cash reward for the good work done.

68. In conclusion, I should not fail to express my great debt of gratitude and sincere thanks to Colonel C. F. Harold and Colonel H. W. Berthon the Political Agents Halar Prant for their sound, sympathetic and kind advice and assistance given from time to time for the good of the Taluka. My best thanks are due to Heads of Departments and officers who have rendered hearty co-operation in the working of the administration of the Taluka.

Hazur Office
10th April 1917.

JAYSUKHRAM L. PARGHI
Kamdar Maliya.

TO,

Thakore Saheb Rajsinhji of Maliya.

Respected Sir,

In compliance with your orders, I have the honour to submit the Annual Administration Report of this Taluka for the year 1917-18 A. D. (St. 1973).

Maliya Hazur Office.
10thApril 1918.

I have the honour to be,
sir,
Your most obedient servant
JAISUKHRAM L. PARGHI,
Kamdar aliya.

134881

ANNUAL

ADMINISTRATION REPORT

OF THE

MALIYA State

FOR THE YEAR 1917-18.

Chapter I.

GENERAL AND POLITICAL.

Area...	...	...103 Square Miles.
Population ...	...	...12,134 Souls according to census of 1911.
Gross Revenue	...	...Rs. 142710 based on an average of past 5 years.
Baroda Tribute	...	...Rs. 1,182.
Junagadh Jortalbi...		...Rs. 185.

Total Rs. 1,367.

The Ruling Chief.

2. Thakore-Saheb Shree Rajsinhji Modji, the Chief of Maliya is 52 years of age and is a Jadeja Rajput. He was educated at the Rajkumar College, Rajkot, in its early days. His present wife is a daughter of a Jhala Garassia of Malvan, a Bhayati village under Dhrangadhra State. The Thakore Saheb has now 2 sons and one daughter. The eldest Kumar Shree Gumansinhji, the heir apparent is 32 years old, and is well educated at the Rajkumar College, Rajkot. He is at Bombay under the treatment of Doctor Rao since he kept indifferent health and hence was advised by the Doctors to live in Bombay for the benefit of his health, and the change has really proved beneficial.

3. Kumar Shree Harischandrasinhji the heir-apparent's eldest Kumar has joined the Rajkumar College, as was reported last year, since October 1917, and he is reported to be doing good work.

4. Kumar Shree Bharatsinhji the second son of the Thakore Saheb had been to Bhavnagar in July last for a change as he was not keeping good health and for which he had had to resign Government Service. He was under treatment of eminent doctors of Bhavnagar, but unfortunately all their efforts proved of no avail and I regret to announce that he died of heart failure in the afternoon of 24th August 1917.

5. On receipt of this regrettable news the Offices, Schools and shops were closed for three days, and relatives, officials, and Bhayats from States and Talukas came on a visit of condolence. Since K. S. Bharatsinhji had left a very good impression on the minds of all those that came in contact with him, his loss was keenly felt by all.

6. When K. S. Bharatsinhji died his wife was pregnant A Post-humous son was born to her on the 24th December 1917 amid great joy. This happy event led to great rejoicings and conforts to the aggrieved family members and the Ryots and more especially to the widow of the late Kumar. He is named Laxmansinhji and though a boy of weak constitution is doing well.

7. K. S. Balvirsinhji the youngest son is 16 years old, he studies at the Talukdari Garassia School Wadhwan Civil Station, but has remained absent for the most part of the year from the school, on account of marriages in the family and plague which was raging furiously there.

8. K. S. Ranjitsinhji son of K. S. Nathaji cousin of the Thakore Saheb is prosecuting his studies at Wadhwan. He was also here on account of reasons narrated above.

9. Ba-Masaheb Subjiba the widow of the late Thakore Saheb Modji, resides at Khakhrechi and draws the usual Jiwai. She kept good health throughout the year.

10. Basahebs Kesharkunverba and Majirajba came here in the beginning of September from Chhota Udepur and Chuda respectively, on account of the sad demise in the family; but returned to their respective places after staying for a week.

11. Kunvarishri Fuljiba daughter of K. S. Nathaji cousin of the Thakore Saheb was married to K. S. Pathubha Manubha (Thakore Saheb's

Maternal uncle's son) of Rojka, under Dhandhuka of the Ahmedabad Collectorate. On account of high prices prevailing on account of the World War, the Taluka had to expend a larger amount in comparison to the sums expended on account of K. S. Nathaji's sisters.

Tour of Thakore Saheb.

12. The Thakore Saheb visited Khakhrechi in August 1917 & March 1918 to see the crops and to enquire of the people of their wants.

Political Relation.

13. The Political relations with the surrounding States and Talukas were as cordial as before.

Visit of the Political Agent.

14. Lt. Colonel H. W. Berthon Political Agent Halar Prant arrived here in his official District tour on the 29th January and had his camp till the 2nd February. During his stay he visited the Jail, the Composite School and the Dispensary and expressed his satisfaction for all he saw. He inspected with special interest the ammunition room, the entrance door of which was changed at his suggestion after the Rajkot Jail incident in December 1916.

Our Day Celebrations

15. The day was observed as a general holiday throughout the Taluka and prizes were awarded at the hands of the Thakore Saheb to the winners of the different races arranged in the compound of the Traveller's Bungalow. Also sweetmeats and flags were freely distributed to the boys and girls of the Local and Village Schools on the morning of the 12th December 1917.

War Lucky Bag.

16. The Taluka had sent a sum of Rs. 500 to Colonel H. W. Berthon for being credited in the Bombay Bank under the proper head on account of "OUR DAY" celebrations at Rajkot in addition to Rs. 100, given for the prizes in the Lucky Bag and Rs. 100, on account of the cost of 100 Tickets purchased by the Thakore Saheb, Officers and Subjects of the Maliya Taluka.

War Contribution.

17. The Taluka continued to pay its monthly subscription to the Tailoring Fund.

War Anniversary.

18. The Thakore Saheb, officers, Shethias, Cultivators, Mianas and other residents of Maliya had assembled in the afternoon of the 4th August 1917 in the Swami Narayan Mandir to offer prayers to Almighty God for a speedy and successful victory of the British Raj and for an everlasting peace. The Mandir was full to its utmost capacity. The people prayed for half an hour and then dispersed after giving three cheers for the King Emperor.

19. The Birthday of the Thakore Saheb was observed on the 17th February 1918. In the morning an informal Darbar was held at the Madh Medi on account of K. S. Bharatsinhji's demise. Promotions to certain officers and and Nimnoks (Jiwai) to the Thakore Saheb's Malvanvala wife and to K. S. Bharatsinhji's widow were announced. The offices and schools were closed since the day was observed as a holiday.

Thakore Saheb's Birth day.

20. Thakore Saheb Joraversinhji of Chuda (Thakore Saheb's sister's son) came here in September and stayed for 5 days.

Visit of Chiefs.

21. In addition to his official district tour in the Taluka villages, the Kamdar had been to Ahmedabad in August last for requesting the Talukdari Settlement officer to withdraw the management over the estate of K. S. Pathubha of Rozka and he was pleased to recommend to Government for its removal and the estate was handed over to K. S. Pathuba in the beginning of November last. So far Thakore Saheb has fulfilled his promise of training him in different work that would be useful to him in carrying out the work of his Jagir smoothly and economically. The Kamdar had been to Rajkot to attend the Karbharis meeting on the 18th March.

Kemdar's Trip.

22. Though the Taluka had to pay Government Loan Debt it arranged with the hearty and loyal co-operation of the Thakore Saheb, Officers and Ryots to contribute Rs. 20790 in the first War Loan.

War Loan contribution.

23. There was no change in the personnel of the administrative staff worth mentioning.

Chapter II

LAND ADMINISTRATION

24. The Chokhabhag system of recovering State share in kind prevails, and is found to work very satisfactorily and no coercive measure required to be adopted

Revenue and Settlement.

25. During the past year rain was above normal and the constant raining damaged the standing Kharif Crops in as much as Bajri, Juwari and pulses did not yield as much as in an ordinary year and the quality of the grain produced was inferior to that of the previous year. The cotton crop on the whole was very successful and coupled with the high

prices obtainable during the year improved the condition of the cultivators and of the Mianas in as much as the former were able to wipe off their Tagavi and outstandings; while the latter with a few exceptions redeemed their mortgaged fields after paying their dues. The good year had no effect on those who were habitual wanderers and who did not care for their fields.

Land Experiment.

26. The Karadia Tank remained full for nearly 6 months and grass grew well on the Chikhli side. Experiment of growing wheat was made in 8 Vighas of land. In the beginning, it grew well but after three weeks it began to fade, and eventually all the standing plants died away, which showed that yet the saltish part had not been washed off. Efforts will be made to prepare three or four plots, encircled by Bundhs that rain water may get collected for a longer period in them and two years continuous test of this sort will surely show better results.

27. 88 Acres and 1 Guntha of uncultivated land were requisitioned for by the cultivators of the Taluka for cultivation. In a few cases a small Nazarana was also offered.

28. The Taluka owns 2/5 share in Kataria in Vagad where a seperate Wahiwatdar is kept for revenue cellections and for safe-guarding the interest of Maliya. The amount misappropriated by the late Wahiwatdar who was a resident of Kataria has neither made good the sum, nor has he made the amicable settlement promised to be effected, and so the Taluka with reluctance shall have to take legal steps for the recovery of the amount, provided, he does not get the matter settled during the next year.

Chapter III.

LEGISLATION.

Legislation.

29. The Courts of the Talukas are guided by the Imperial Laws in force. It has enacted a set of rules and regulations for the smooth and efficient working of the Courts. However, if a difficulty arises the spirit of the British Laws is adopted in disposing it of.

30. Appendix II supplies the necessary information on the point.

MILITARY FORCE.

31. No Military Force is maintained by the Taluka.

POLICE.

Police.

32. The strength of the Police for the year under report has undergone no change. The ratio of Police to population is 3·9 per thousand and to area, ·46 per Square Mile. The total cost during the year under report was 13518 as against 15341 in the preceding year. The decrease in expenditure is due to the fact that, this year no long coats were supplied to the Force as well as no additional expenditure except in one case had to be incurred on account of deputing of Police parties for bringing the Wandering Mianas.

33. Appendix IV supplies the details of the strength, expenditure, discipline and education of the Police during the year under report.

Working of the Police.

34. Appendices V, VI and VII deal with the working of the Police. The percentage of convictions to the number of accused sent up for trial was 42 42 as against 55·84 in the preceding year. The percentage of property recovered to that of stolen during the year under report worked out at 92·29 as against 55·88 in the preceding year. It is an open thing that the Taluka has to maintain a larger number of Policemen in comparison with other Fourth Class Talukas, since over ¼ of its population consists of Mianas a very dangerous and notorious class of people who require constant supervision and efficient watching to prevent them from doing mischief in Maliya as well as in other parts of Gujrat and Kathiawar.

35. Mr. Ramchandra Ganpatram a Jamadar of the Agency Police was incharge of the Chief ConstableShip throughout the year. The working of the Police on the whole seems satisfactory.

Village Police

36. The total number of Village Police is 60 on the last day of the year of which 52 are paid in cash, whereas the remaining 8 have got land for service. Out of this number 12 are called "The City Police Men" who serve in Maliya town under the supervision of the Foujdar while the rest serve in the villages under the control of the Revenue Wahiwatdars; and so far as guarding of villages and the prevention and detection of crimes are concerned they are subordinate to the Foujdar. Out of these, 48 men are armed with guns, whereas the rest have swords and knives. Great difficulty was experienced

in filling up the vacancies since on account of high wages prevailing everywhere the labouring class people prefer to live on miscellaneous labour rather than to be servants on fixed pay.

CRIMINAL JUSTICE.

Criminal Justice.

37. The number and constitution of the Criminal Courts of the Taluka during the year under report continues to be the same as in the preceding year. Viz:—

I. The Hazur Court. This Court exercises all the powers of a Fourth Class Taluka of the Kathiawar Agency and hears appeals against the decisions of the subordinate Courts.

II. The Court of the Maliya Nyayadhish. This Court exercises the powers of a First Class Magistrate.

III. The Court of the Khakhrechi Wahiwatdar. This Court exercises the powers of a Third Class Magistrate. Appendix VIII shows the work done by these Courts during the year under report.

Mr. Shankerprasad A. Baxi a District Pleader holds Nyayadhish's office and is doing his work well.

Criminal Appellate work.

38. Appendix IX gives the details of the work done by the Hazur Court. Sadhwani Sadul Rana one of the Miana Mukhis was shot dead while sleeping in his house at Maliya during the night of the 27th June and the perpetrators of the offence fled away but were traced out and arrested after great trouble. The three accused connected with the murder were committed to the Court of the Judicial Assistant to the Agent to the Governor Kathiawar to take their trial, but all were acquitted.

CIVIL JUSTICE.

Civil Justice.

39. There are 3 Civil Courts in the Taluka.

1. The Hazur Court. It entertains original civil Suits over the value of Rs. 5000 and also hears appeals against the decisions of the subordinate Courts.

II. The Maliya Nyayadhish Court hears original Suits upto the value of Rs. 5000.

III. The Court of the Wahiwatdar of Khakhrechi is empowered to hear original suits upto the value of Rs. 250 of the people of the villages of the Khakhrechi Mahal. Appendix X shows the original Civil Work done by the different Courts of the Taluka and the nature and the value of the Suits filed and disposed of during the year under report.

40. 60 suits were filed during the year under report, as compared with 38 suits filed in the preceding year while the number of suits disposed of was 64 as against 38 in the previous year. The value of suits instituted during the year under report was Rs. 4766-15-9 as against Rs. 728-13-11 during the previous year. The number of cases regarding landed property was 3 against 4 in the preceding year. The average duration of Suits was 3 months & 29 days.

Execution of decrees.

41. Appendix XI furnishes the information regarding the number of decrees in balance at the beginning of the year, the number filed during the year the number executed during the year and the number remained undisposed of at the end of the year. There were 11 in balance of the past year, while 39 were filed during the year under report. as against 26 filed during the past year. The number remained undisposed of at the end of the year was 5.

Civil Appellate Work.

42. Appendix XII treats of the civil Appellate work done by the Hazur Court. Of the total number of appeals brought on the register 5 were disposed of during the year as against 4 in the preceding year. The average period taken in disposing of one appeal came to 7 months and 8 days since one appeal was of long duration and the appellant being a member of the Agency Police asked for postponments under plea of leave not having been granted to him.

Extradition

43. 25 demands were made upon the Taluka as against 11 in the previous year. The demands were from the states of Jamnagar, Dhrangadhra, Morvi Lodhika, Chotila & Bhachau (Cutch). 1 person was made over to the Taluka by the Porbandar State.

Prison

44. There is one Prison at Maliya and a Lockup at Khakhrechi. The Maliya Nyayadhish is Ex officio Superintendent of Maliya Jail. The number of prisoners admitted into the Maliya Jail in the year under report was 194 as against 182 in the preceding year. The health and condition of the Jail during the year was good and the total expenditure amounted to Rs. 1289-12-10 as against Rs. 2234-9-1

during the year before. Appendix XIII supplies the details in connection with the Jail.

REGISTRATION.

Registration.

45. 123 documents of the aggregate value of Rs. 33884-12-0 were registered during the year under report, as against 148 of the value of Rs. 41892-8-0 during the preceding year. The registration fees realised during the year were Rs. 256 as against Rs. 311 during the past year. 2 documents remaining unregistered at the end of the last year, were returned unregistered during the year under report.

46. Appendices XIV & XV give details in this connection.

Municipality.

47. There is no regularly constituted Municipality, but the Taluka has made necessary arrangement at its own expense to clean and light the principal streets of the Town. Appendix XVI shows that the expenditure in this connection came to Rs. 868-4-9 as against 893-3-7 during the previous year. The Medical officer supervises the Municipal work and looks to the sanitation of the Town.

Forest.

48. There is no forest in the Taluka, however, efforts are made to protect Babul trees that grew in the Padtar lands and on the banks of the river Machhu. Two special men are appointed to protect Babul trees and to supervise the watering arrangement made to bring up Babul Nim and other trees.

49. There is no separate Public Works Department in the Taluka, but necessary original works and repairs are done under the supervision of the Surveyor under the general control of the Kamdar. The Berthon Bundh is nearing completion. Both the tanks at Khakhrechi are full with water which fact shows that the Bundh has served a very useful purpose. Appendix XIX gives the details of the works during the year under report.

Post and Telegraph Office.

50. There are 3 Post Offices in the Taluka, Viz. 1 Maliya, 2 Khakhrechi, and 3 Wadharwa. There is a Telegraph office combined with the Post Office at Maliya, The general Post comes via Halvad, Khakhrechi and Wadharva to Maliya; which is not a laudable change.

51. During the year under report the Postal arrangement was found to be very defective for, some days in Monsoon no Post was received and the Public experienced great hardship and inconvenience. Then again came the Bhavnagar Railway employes' strike and no Post was received for nearly a week. It is hoped that the Postal authorities will take necessary

steps for the receipt of regular Post in the coming Monsoon. The Post being always late, allows very little time to reply urgent references from the Agency by the return Post.

Mint.

52. There is no Mint and British Coins are in general circulation in Maliya Taluka.

Ginning Factory.

53. The Ginning Factory has commenced work, but on account of great World War the Proprietors experienced great difficulty in getting coal from Bengal. A reference has also been made through proper channel for the early supply of coal but upto now, except a small quantity, none is forth coming. Last year there was water difficulty whereas there is fuel difficulty this year, and looking to the produce of cotton it is very difficult to finish up the work in time. 7 new gins have been added, however it is not possible to get the whole lot of cotton ginned for want of fuel and coal and short time. The Proprietors are very much disheartened on account of high prices of materials and non supply of fuel, without which it is impossible to work the Factory. No country wood can be got since trees are scarce

Agricultural Stock.

54. Appendix XX supplies details of the agricultural stock of the Taluka. The number of bullocks and cows have increased considerably which shows the return of the normal times. There is a marked improvement in ploughs and carts. The cultivators listened to the advice and have stacked the surplus grass as a famine reserve, but the Mianas except a few have not taken the matter in right earnest, however, they are constantly persuaded to store up grass as a preventive measure against scarcity. The Taluka has stored up as much hay as can possibly be spared, as a preventive measure against scarcity or famine.

Chapter IV.

PRODUCTION & DISTRIBUTION.

Water and Crops.

55. The Rain fall for the whole year amounted to 34 inches and 96 cents as compared with 16 inches and 90 cents in the preceding year. The average Rainfall of the past 5 years came to 21 inches and 99 cents. The Monsoon set in in the month of May, and June, July, August, September and October had good downpour. The October Rain spoilt Bajri Juwar and pulses. The river Machhu was infloods for days continuously and roads were impassable and muddy which made travelling very difficult. The cotton crops gave a

very good return, and especially bad land yielded more than superior land. The Monsoon lasted for about 6 months which raised the price of fuel and other articles abnormally high.

Wages and Labour.

56. The rates of wages of skilled, unskilled, and field labourers remained very high and the bumper harvest of cotton gave them additional more work with a result that the Khakhrechi Ginning Factory does not get sufficient number of workers and those that attend ask for high wages which the proprietors could not afford to pay. The labourers are scarce for, Public Works Department and some of the works provided for, have had to be put off till next year.

Prices of Cereals.

57. The prices of cereals were higher than they were last year. This is due to great export of Juwari and other food stuffs to Vagad (Cutch), but latterly such exports are put a stop to, to avert the state of semi starvation for want of food.

Customs.

58. The realization of the Customs revenue rose from Rs. 13806 to Rs. 38759 during the year under report. The increase in the Customs revenue is a sign of good harvest and increased prosperity in trade.

Condition of the people.

59. The general economic condition of the people has continued to improve, since the high prices of cotton has greatly added to the prosperity of the agriculturists and of those Mianas who depend principally on agriculture. High wages prevailed throughout the year and the Kolis and other residents of Khakhrechi who live on honest labour have been living comfortably after the establishment of the Ginning Factory. But this year on account of want of coal, it is doubtful whether the Ginning Factory can successfully work for the season.

Cutcha Press.

60. One Bania of Wadhwan has erected a Cutcha Press at Khakhrechi. He has been allowed to have it on condition that he will take it away when arrangements are made for a Steam Press, either by the Proprietors of the Ginning Factory or by others.

Chapter V.

REVENUE AND FINANCE.

61. The total Gross Revenue for the year including adjustments re-

Revenue.

missions and recoveries of outstandings and Tagavi &c. amounted to Rs. 320861 as against Rs. 169200 during the previous year. Excluding adjustment and other sub-items the net cash realizations during the year amounted to Rs. 205613 as against Rs. 67227 in the previous year.

Debts

62. The following table will supply the imformation regarding indebtedness of the Taluka at the end of Samwat year 1973 ending 31-10-17 as well as on 31-3-18.

No.	Nature of the debt.	Due on 31-10-17	Due on 31-3-18
1	Old Government Loan of St. 1956 1958 and 1968	1983-0-0	0-0-0
2	New Government Loan of St. 1971	64378-0-0	39648-0-0
3	Local Fund Loan	145930-0-0	145930-0-0
4	Old Cutch Karaj	34011-0-0	33011-0-0
5	Wavania Port Trust Fund	17500-0-0	17500-0-0
	Total Rs...	263802-0-0	236089-0-0

Repayment of Debts.

63. Rs. 49975 were repaid in lieu of Government Loan debts and Rs. 70992-0-0 were remitted by Government out of the Local Fund Loan Debt. Provision has been made to pay Rs. 50000 Fifty Thousand in repayment of Government Loan in addition to Rs. 30000 paid in March last; which will bring the total to over Rs. 80000.

Chapter VI.

Hospital & Dispensary.

64. The Maliya Dispensary was incharge of a qualified Sub Assistant Surgeon Mr. Mangalprasad Revashanker Chhaya during the whole year; ~~has~~ he does his work carefully and well.

Sanitation.

65. The sanitation of the Town is looked after by the Medical Officer and the cleaning of streets in Maliya is done by a staff of sweepers incharge of a Municipal peon under the supervision of the Medical Officer. In Khakhrechi the Public

Offices and buildings premises are cleaned by paid sweepers and the town is cleaned by Bhangis on renumeration settled by private arrangements. The general health of the people was good and there was no epidemic disease in the Taluka. There were a few cases of Small Pox and measles, but the disease did not take a serious turn.

Vaccination

66. The Vaccination work was carried out as usual under the supervision and control of the Agency Surgeon. 497 children were vaccinated during the year as against 602 in the previous year. There were no revaccinations against 216 in the previous year.

Births and Deaths.

67. There were 424 births as against 380 in the preceding yaer. The ratio being 34·94 per thousand as against 31·31 for the previous year. The number of deaths registered during the year was 342 as against 322 during the preceding year. The ratio being 28·18 per thousand as against 26·53 for the preceding year. The increase in the death's rate is due to pneumonic fever which raged in the last days of October and March.

68. There were two cases of accidental fires at Maliya which were put out at once, since it was day time and the Thakore Saheb, Kamdar, Officers, Police and people ran to the spot and brought the fire under control. The damage was insignificant as most of the cotton pods were removed at once.

69. Fortunately the Taluka was quite free from either Cholera or Plague during the whole year as in the preceding year. Arrangements however, were made for keeping the men coming from infected areas under Medical surveillance for 10 days. The Police Patels of the different villages were ordered to see that none suffering from Plague gets admission in to their respective villages. These vigilant measures prevented the spread of that disease.

Chapter VII.

EDUCATION.

Education.

70. Appendix XXV supplies the information regarding the Schools maintained by the Taluka. The number of Schools remained the same, as shown last year viz:— 7 for boys and 2 for girls. The total number of boys attending schools during the

year under report was 418 while that of the girls 107 as against 429 and 112 respectively during the preceding year. There is a slight decrease which calls for no special remarks. The Head Master of the Composite School has been transferred and a new man has taken his place; since he does not keep good health; he tries to get a place at Limdi his native place on a lower pay. The Head Mistress has worked hard is testified by the fact of her getting a good result at the annual examination.

71. The total expenditure on account of education during the year under report was Rs. 3632 as against Rs. 3946 in the previous year. The reason of the decrease is due to the fact that no new science apparatus or new furniture except the articles that were badly required were purchased during the year under report. The Educational Department of the Taluka is under the control of the Agency Educational Officer and the Taluka pays its Varad along with other III and IV Class Talukas.

Chapter VIII.

Library.

72. There is a small Library in Maliya maintained by the Taluka. The Library has been registered according to the rules in force in that connection.

Printing Press.

73. There is no Printing Press here nor is any news Paper published in the Taluka.

Excise Revenue.

74. Appendix XXI suplies the details regarding excise Revenue of the Taluka.

Receipts and expenditure.

75. Appendix XXII furnishes the details of the receipts and disbursements of the Taluka Excluding advance Tagavi and adjustments, receipts from Head 1 to VII amounted Rs. to 205613. Rs. 49975 were repaid in Government Loan debts though a large sum was expended in the Marriage of Basaheb Devkunverbasaheb the only daughter of The Thakore Saheb and latterly of Fulkunverba the daughter of K. S. Nathaji and niece of the Thakore Saheb.

Birthday of His Imperial Majesty King Emperor.

76. The Birthday of his Imperial Majesty the King Emperor was celebrated throughout the Taluka on 3rd June 1917 which was observed as a public holiday. Prayer meetings were held in their respective places of worships by the people of different communities in the Taluka wishing long life to the King Emperor and success to the allies arms in the present great War.

77. I should not fail to express my best and dutiful thanks to Thakore Saheb who has great habit of industry, indefatiguable zeal for work and a tactful mind to exact work from the subordinates and who is always very particular in seeing that his instructions are fully carried out I am also highly indebted to Colnel H. W. Berthon our popular Political Agent for the kind and sympthetic advice given from time to time for the best interest of the Taluka. I avail myself of this opportunity to exprees my sincere and best thanks to all the Heads of Offices and the subordinate Staff for their zeal, and hearty co-operation rendered by them in the speedy discharge of their duties, without which such a successful result could not have been achieved.

JAYSUKHRAM L. PARGHI
Kamdar Maliya.

TO,

Thakore Saheb Rajsinhji of Maliya.

Respected Sir,

In pursuance of your wishes, I have the honour to submit the Annual Administration Report of this Taluka for the year 1918-19 A. D. (St. 1974).

Malia Hazur Office.
7th April 1919.

I have the honour to be
Sir,
Your Most Obedient Servant,
JAYSUKHRAM L. PARGHI,
Kamdar Maliya.

ANNUAL

ADMINISTRATION REPORT

OF THE

MALIYA State.

For the year 1918-19.

CHAPTER I.

GENERAL AND POLITICAL.

Area...	... ...	...103 Square Miles.
Population ...	...	...12,134 Souls according to census of 1911.
Gross Revenue	...	...Rs. 173028 based on an average of past 5 years.
Baroda Tribute	...	...Rs. 1,182.
Junagadh Jortalbi...		...Rs. 185.
		Total Rs. 1,367.

The Ruling Chief.

2. Thakore Saheb Shri Rajsinhji Modji, the Chief of Maliya is 53 years of age and is a Jadeja Rajput. He was educated at the Rajkumar College, Rajkot, in its early days. His present wife is a daughter of a Jhala Garassia of Malvan, a Bhayati village under Dhrangadhra State. The Thakore Saheb has 2 sons and one daughter The eldest, Kumar Shri Gumansinhji, the heir apparent is 33 years old; and is well educated at the Rajkumar College, Rajkot. He resides in Rajkot as Honorary Personal Assistant of the Thakore Saheb there. As reported last year, as Kumar Shree Gumansinhji

did not generally keep good health, he preferred to remain in Bombay for receiving treatment under abler Medical hands. He was chiefly under the treatment of Dr. Rao and other eminent surgeons. On the appearance of the dire epidemic of Influenza he had to remove to Lonavla and from thence to Rajkot, where he was up to the end of the year under report. The heir apparent's eldest son Kumar Shri Harischandrasinhji also passed some months in Bombay and Lonavla on account of Plague at Rajkot since the College remained closed for some months on that account.

3. Kumar Shri Harischandrasinhji the heir apparent's eldest Kumar is prosecuting his studies at the Rajkumar College and his progress is reported to be very satisfactory by the Principal of the said Institution. Besides he is getting stronger and has begun to show more activities in games.

4. Kumar Shri Balvirsinhji the youngest Kumar is 17 years old; he was at the Garassia School Wadhwan Civil Station for the whole year. His progress is reported favourably by the Superintendent of that School.

5. K. S. Ranjitsinhji son of K. S. Nathaji cousin of the Thakore Saheb was also at the Wadhwan Garassia School but his study is not reported to be so good as that of K. S. Balvirsinhji.

6. K. S. Laxmansinhji the only son of the late lamented K. S. Bharatsinhji died at Bhavnagar on 22nd April last of Pneumonia. This regrettable incident cast a gloom over the Chief's family, since he was the only son on whom all hopes of his mother lay.

7. Bama Saheb Subjiba the widow of the late Thakore Saheb Modji keeps her residence at Khakhrechi as before. She was in good health and occasionally came here and resided for a few days.

8. Kunvari Shri Fuljiba daughter of K. S. Nathaji cousin of the Thakore Saheb who was married to K. S. Pathubha Manubha (Thakore Saheb's maternal Uncle's son). of Rojka under Dhandhuka of the Ahmedabad Collectorate died at Rojka on 26-10-18 of Influenza while she was confined in bed owing to the birth of a son. The child also died prior to its mother.

9. The Uteliawala wife of the heir apparent K. S. Gumansinhji gave birth to a daughter on 26-7-18 at Bombay.

10. As His highness the Maharaja Saheb of Banswara had proceeded to Bombay for Medical operation under able hands the Thakore Saheb accompanied by his Kamdar proceeded to Bombay in the middle of June to attend upon the Maharaja Saheb who is his Son-in-Law. The operation was successfully performed and the Thakore Saheb remained in Bombay till the Maharaja Saheb was fully recovered and then proceeded for a pilgrimage to Nasik and Trimbak. While in Bombay he paid visits to His Highness the Maharao Saheb of Cutch, His Highness the Thakore Saheb of Morvi and the Thakore Saheb of Rajkot who were there at the time and returned to Maliya in the middle of July after an absence of about a month.

Tour of the Thakore Saheb.

11. As Lt. Colonel Berthon the Political Agent Halar Prant was proceeding home on leave the Thakore Saheb accompanied by his Kamdar went to Rajkot in the latter half of the month of January. While in Rajkot the Thakore Saheb paid visits to Col. R. S. Pottinger, the Agent to the Governor in Kathiawar and Major A. H. E. Mosse the Personal Assistant to the Agent to the Governor, who subsequently succeeded Col. Berthon as P. A. Halar. He also paid visits to Mr. Mayne the Principal Rajkumar College to enquire after the health and progress of his grandson, and Mr. E. Sims the Engineer Junagadh Railway who was Thakore Saheb's friend and acquaintance while he was Agency Engineer. He also was present while the Kumars were playing different games in the College premises.

12. The Thakore Saheb visited the Shaurastra High School at Rajkot at the request of the proprietors and donated Rs. 200. for prizes and chemical Apparatus which were badly needed. He made boys and girls read English and Sanskrit and was pleased at the way they acquitted themselves. The dicipline of the boys seemed generally good.

13. In the begining of the month of February the Thakore Saheb had been to Muli a place of sanctity of the Swaminarayan creed to settle some internal differences among the diciples and the followers of that sect at the desire of the Acharya Maharaj, the diciples and the followers and returned here on the 12th.

Political Relations.

14. The Political relations with the surrounding States and Talukas were as cordial as before.

Visit of the Political Agent.

15. Major A. H. E. Mosse, Political Agent Halar Prant, arrived here on the 15th February in his Official district tour and remained for 5 days. During his visit here he visited the Composite School, the Girls' School, the Khoja

Madresa, the Jail and the Dispensary and expressed his satisfaction for neatness and good management in those Institutions. He laid the foundation stone of the Ravchand Dharamshala while the foundation stone of the Bharatsinhji Vegetable Market was laid at the hands of Mrs. Mosse in the evening of the 16th when speeches suitable to the occasion were read by the Kamdar on behalf of the Thakore Saheb and replied to by Major A. H. E. Mosse. The proceedings terminated with the distribution of Pan Sopari and three cheers for His Imperial Majesty the King-Emperor and Major Mosse his representive here at the time.

War Anniversary.

16. In order to offer prayers to the Almighty for a speedy and successful victory of the British Arms and for an everlasting peace; the Thakore Saheb, Officers, Bhayats, Merchants, Cultivators and Miana Mukhis of Maliya had assembled in the afternoon on the 4th August 1918, (the 4th War Anniversary day) in the Swaminarayan temple. After offering prayers and giving three hearty cheers for His Majesty the King Emperor the assembly dispersed.

The Birth Day of the Thakore Saheb.

17. This day was observed as a general holdiday as usual. No Darbar was held as the Thakore Saheb had been to Muli the previous night.

18. K. S. Balvirsinhji the youngest son of the Thakore Saheb was betrothed to the daughter of Ranashri Nanbha (Maternal uncle of the Thakore Saheb) a shareholder of Vadod under Wadhwan Civil Station Thana in the month of May 1918. This connection no doubt cemented the union of the Maliya and Vadod houses. A formal Darbar was held to celebrate this auspicious event and sweetmeats were freely distributed to those assembled at the Darbar and the School children.

Recognition of Kamdar's services by the Imperial Government.

19. In recognition of the valuable services rendered to the Taluka and the people by the Kamdar Mr. Jaysukhram L. Parghi, the Benign British Government were pleased to confer upon him the personal distinguished title of RAO SAHEB, which was notified in the new year's Honour's list. The residents of Maliya including the Mianas being greatly delighted on hearing this news gave tea parties to express their joy and good feelings.

Visit of Chiefs.

20. His Highness the Thakore Saheb of Morvi accompanied by R. M. Phillips Esq., the Superintendent of the Agency Police paid a flying visit to Thakore Saheb on the morning of the 31st January and stayed in the Palace for about an

hour. His Highness also came twice when the Political Agent's camp was here in February.

Kathiawar Central Relief Committee Fund.

21. A committee having been appointed at Rajkot to collect funds for the relief of the poor Rs. 300 three hundred were subscribed on behalf of this Taluka towards this fund notwithstanding it had to attend to various local demands.

22. Similarly in order to assist the poor people of this Taluka a meeting was convened under the presidentship of the Thakore Saheb at Maliya and Khakhreehi to collect funds. These meetings were largely attended by the Officers, Bhayats, Jiwaidars, Merchants and Cultivators of all the villages of this Taluka, where a speech describing the object of the assembly was made by Rao Saheb Parghi and Rs. 5000 odd were subscribed for the purpose. A committee under the Presidentship of the Kamdar for Maliya and a Sub-committee at Khakhrechi had been appointed to regulate the distribution of the doles from this Fund to the deserving poor, and the starving cattle.

Dinner to His Excellency the departing Governor of Bombay.

23. The tenure of office of Lord Willingdon having come to an end the Ruling Chiefs and Talukdars of the Presidency entertained him at a dinner party in Bombay. Though the Thakore Saheb could not attend it on account of other pressing duties here, Rs. 300 were paid towards the expenses incurred on this account.

Kamdar's Trip.

24. The Kamdar paid official visits to all the villages of the Taluka as occasions required and in addition to it he proceeded to Ahmedabad in connection with a case of K. S. Pathubha and also for obtaining certain information about the Kesardi Vanta situated in Dholka Taluka and originally belonging to Maliya.

Installation Day of the Thakore Saheb.

25. In commemoration of the Installation day of the Thakore Saheb a free gift of two plots of land were made to the Mahajans of Maliya for erecting Dharamshalas thereon.

26. In celebration of the victories of the Allies Arms in Europe holidays were observed in all the Offices and schools of the Taluka and flags were hoisted on prominent State Buildings in November last.

27. Mr. Shankerprasad A. Baxi, the Nyayadhish having resigned his appointment was succeeded by Mr. Mayashanker Revashanker Anjaria, he also having resigned on getting a place in Mahikantha Mr. Kalianray Mahipatray Oza succeeded him and remained in Office till the end of the year.

Personnel of the administration Staff.

CHAPTER II.

LAND ADMINISTRATION.

28. The Chokha Bhag system of recovering State share in kind continues, and is working satisfactorily, since it involves no further responsibility on the cultivators. Besides a good year's revenue is appreciably higher than that of normal years and hence the necessity of resorting to coercive measures never arises.

Revenue and settlement.

29 During the year under report the monsoon was very irregular and most of the Kharif and Rabi crops perished, but a seasonable shower of rain in September considerably saved the situation and the agriculturists got some return in Juwari, Bajri and cotton. The former gave them food and fodder for some months whereas the latter crop brought them money to maintain themselves and their cattle.

30. The village of Haripur was greatly indebted to the floods of the river Machhu, which assisted them to sow Bajri, pulses and cotton in the inundated area and its produce was comparatively better than that of the neighbouring villages.

31. The cultivators of this Taluka are tenants at will and so long as they pay Darbar charges regularly they continue in their holdings from generation to generation. The transfer of holdings only takes place when a holder dies without male issues. They are not allowed to alienate any part of their holdings either by sale mortgage or otherwise.

Description of holdings.

32. No experiment for reclaiming land in Karadia could be taken in hand this year on account of scanty rains.

33. 99 Acres and 13 Gunthas of culturable land, were brought under the plough. Last year Rs. 6534 were realised as Nazrano or Saker for the occupancy right of the land requisitioned for by the new cultivators.

34. The Taluka owns 2/5 share in Kataria in Vagad (Cutch) where a seperate Wahiwatdar is maintained for Revenue collections and for safe guarding the interest of Maliya.

Storage of Fodder.

35. The Taluka had stored up all surplus grass out of its Bids, as well as advised cultivators to do the same with a result that this year though a bad one most of their cattle are safe and sound, whereas those belonging to Mianas have suffered since they neither stored up fodder nor did they listen to the advice given from time to time to make adequate provisions to save their cattle from Famine.

36. The Maliya Cultivators and the Mianas raised irrigated wheat on lands situated on both the Banks of the River Machhu and the outturn was good. All those who could not do them independently were given Tagavi and food grains and this gave them food and fodder to last for some months.

CHAPTER III.

LEGISLATION.

Legislation.

37. As the Taluka has not enacted all laws required for the working of the Courts, the Imperial Laws are generally resorted to. When there are no special Laws of the Taluka and even when a difficulty arises in the Taluka's own Laws, the spirit of the British Laws is adopted.

38. Appeneix 11 supplies the necessary information on the point.

MILITARY FORCE.

39. No Military Force is maintained by the Taluka.

POLICE.

Police.

40. With the exception of the Chief Constables there has been no change in the strength of the Police during the year under report. The ratio of Police to population is 3·9 per thousand and to area ·46 per square mile. The total cost of the up keep of the Police during the year under report was Rs. 15218 as against Rs. 13518 in the preceding year. The increase in the expenditure over that of the last year is due to the grain compensation granted to the members of the Force on account of the dearness of food stuffs.

41. Appendix IV gives details of the strength, expenditure, dicipline and education of the Police during the year under report.

Working of the *Police*.

42. Appendices V, VI, and VII give details of the working of the Police. The percentage of convictions to the number of accused sent up for trial was 63·46 as against 42·42 in the preceding year. The percentage of the property recovered to that of stolen during the year under report was 88·64 as against 92·29 for the previous year. As the Taluka has to cope with the Mianas who are a very dangerous and notorious class of people, a larger number of Police Force has to be maintained as compared with other Talukas having the same Status and power. Mr. Ramchandra G. having joined the Porbandar State services Khachar Punja Devdan relieved him on 2nd May 1918, while he in turn was relieved in the begining of March by Mr. Gajanand Malharrao a retired Agency Chief Constable.

Village police.

43. The total number of Village Police was 62 on the last day of the year; out of which 54 were paid in cash while the remaining have lands asigned to them on service Of this number 15 are designated " The men of the City Police ", who work in Maliya town under the supervision of the Chief Constable, while the rest do duty in the villages of the Taluka under the supervision of the Revenue Wahiwatdars. They assist him in Revenue and other duties. The work of guarding the villages and that of preventing and detecting of crimes is being supervised by the Chief Constable. Of this number 48 are armed with guns and the remainder are armed with swords and knives. As people of the labouring class earned higher wages on miscellaneous labour they do not prefer to be servants on fixed pay and consequently it was found very difficult in securing good men to fill up vacancies caused by resignations and dismissals.

CRIMINAL JUSTICE.

Criminal Justice.

44. There was no change in the number and constitution of the Criminal Courts in the Taluka during the year under report.

1. The Hazur Court. This Court exercises all the powers of a Fourth Class Taluka of the Kathiawar Agency, and also hears appeals against the decisions of the subordinate Courts.

II. The Court of the Maliya Nyayadhish. This Court exercises the powers of a First Class Magistrate.

III. The Court of the Khakhrechi Wahiwatdar. This Court exercises the powers of a Third Class Magistrate. Appendix VIII shows the work done by the different Courts during the year under report.

45. Appendix IX shows the appellate work done by the Hazur Court.

CIVIL JUSTICE.

Civil Justice. 46. The Taluka maintains 3 Civil Courts.

I. The Hazur Court. This Court entertains original suits in excess of the value of Rs. 5000 and also hears appeals against the decisions of the subordinate Courts.

II. The Court of the Maliya Nyayadhish entertains original Civil Suits up to the value of Rs. 5000 and registers documents to that extent.

III. The Court of the Khakhrechi Wahiwatdar has powers to entertain original Civil Suits up to the value of Rs. 250 of the people of the villages of the Khakhrechi Mahal. Appendix X gives details of the original civil work done by the various Courts of the Taluka, and the nature and value of the suits filed and disposed of during the year under report.

47. 66 suits were filed during the year under report as against 60 suits filed in the preceding year, the number of suits disposed of was 50 as against 64 in the preceding year. The value of suits instituted during the year under report was Rs. 7220-12-½ as against Rs. 4766-15-9 during the previous year. The number of cases regarding landed property was 4 as against 3 in the preceding year. The average duration of suits was 4 months and 29 days. On account of the year being one verging on Famine and also as Influenza epidemic raged for very nearly 3 months in all the villages of the Taluka resulting in large number of deaths, the civil work could not be disposed of as the parties were not able to attend the various Courts on days fixed for the hearings and this accounts for the less work appearing in the appendix.

48. Appendix XI gives the information regarding the number of execution decrees in balance from last year, those filed during the year

under report, and the number executed during the same as also the number remaining undisposed of at the close of the year. There were 5 execution decrees in balance at the commencement of the year, while 29 were newly filed during the year under report, as against 39 filed during the year preceding. The number remaining undisposed of at the close of the year was only 1.

Civil Appellate work.

49. Appendix XII furnishes the information of the civil appellate work done by the Taluka Hazur Court. There was 1 appeal in balance from last year and 1 new appeal was filed during the year under report ; both these appeals having been disposed of, there was none in balance at the close of the year. The average period for the disposal of the appeal was 6 months.

Extradition.

50. 9 demands were made upon this Taluka as against 25 in the previous year. The demands were from the States of Jamnagar and Dhrangadhra.

Prison.

51. There is 1 prison at Maliya and a lock-up at Khakhrechi. The duties of the Jail Superintendent were some time performed by the Maliya Nyayadhish and subsequently by the Chief Medical Officer. The number of prisoners admitted into the Maliya Jail during the year under report was 150 as against 194 during the year preceding. The health and condition of the inmates during the year was good. The total expenditure incurred was Rs. 1431–10–9 as against Rs. 1289–12–10 during the preceding year. Appendix XIII gives the various details in connection with the Jail.

REGISTRATION.

Registration.

52. 492 documents of the aggregate value of Rs. 128234 were registered during the year under report, as against 123 of the value of Rs. 33884-12-0 during the preceding year. The registration fees realised during the year under report were Rs. 967 as against Rs. 256 during the preceding year. The increase in fees is due to the fact that more instruments were presented for registration since the current year is one of scarcity and last year being one of prosperity on account of good out-turn of cotton, most of the fields belonging to the Mianas and others were redeemed and these were again mortgaged for getting money for their own as well as their cattle's maintenance.

53. Appendices XIV and XV furnish the full particulars on this point.

Municipality.

54. There is no regularly constituted Municipality but the Taluka has made adequate arrangements at its cost for the cleaning and lighting of the principal streets of the town. Appendix XVI shows that the expenditure for maintaining this Municipality, came to Rs. 1118-12-7 as against Rs. 868-4-9 during the preceding year. The increase on this account is due to high prices of kerosine oil and the cost of grain compensation sanctioned to the menial servants. The Medical Officer supervises this work and looks to the sanitation of the town.

Forest.

55. There is no forest in the Taluka, but efforts are in progress to protect Babul trees that grow in Fadtar Lands and on the banks of the River Machhu. Two men are appointed to look after the old and newly planted trees. A good number of new trees are added to the stock every year.

56. There is no independent Public Works Department but necessary original works and repairs are executed under the supervision of the State Surveyor under the general control of the Kamdar. The Khakhrechi Berthon Bundh is completed and had there been sufficient rains it could have repaid the money expended over it. On account of insufficient rain the tanks were not full, however, there is yet water in one sufficient to keep the tank fish alive till the advent of the rains.

Vaishnavi Temple at Khakhrechi.

57. There was a long desideratum of a Vaishnavi temple at Khakhrechi since a great part of the population of that town follow that creed and the Darbar with a view to meet their wishes has expended nearly Rs. 4000 after the construction of a nice edifice under the designation of Tulshi Shyam Temple with a nice little Dharamshala attached to it for the accommodation of Travellers and Pilgrims. Appendix XIX supplies the information regarding the Public Works Department.

Post offices.

58. There are 3 Post Offices in the Taluka, viz. 1 Malia, 2 Khakhrechi and 3 Wadharwa. There is a Telegraph Office combined with the Post Office at Maliya. The general Post comes via Halvad, Khakhrechi and Wadharwa to Maliya; there was not much improvement for the timely bringing of the Post to Maliya in monsoon.

Mint.

59. There is no Mint, and British Coins are in general circulation in Maliya Taluka.

Ginning Factory.

60. Last year being a year of a bumper harvest for cotton, the Ginning Factory had more work than it could turn out and so several merchants had to take their Kapas to Morvi and Halvad for being ginned. The factory proprietors were advised to add 8 new gins to the number to give fecility to the merchants but since the out-turn of cotton was only 6 annas in a rupee, there will be no necessity this year to take unginned Kapas in other States. The difficulty of fuel was the same as during the last year, and the deficit was met by grant of fuel from the Taluka. The high prices of labour also was felt in securing requisite labourers in working the Factory to its full extent.

Agricultural Stock.

61. Appendix XX shows particulars of the agricultural Stock in the Taluka. There is no appreciable change in the live stock and though the year is one of scarcity on account of scanty rainfall the people having understood the advisability of storing grass during good years have been able to keep alive the live stock from the balance of the previous years' grass, and those who had no such stock were assisted by the Taluka, and in some instances by the Mahajans. Some cultivators who had not sufficient grass with them had purchased it either independently or by getting Tagavi from the Darbar from those who had more in stock. The Taluka has sufficient grass for its animals including the Police Sowars and also it assisted the cultivators by sanctioning and giving the surplus grass in Tagavi.

CHAPTER IV

PRODUCTION AND DISTRIBUTION.

Water & crops.

62. The rain fall for the whole year amounted to 7 Inches and 41 Cents as compared with 34 Inches and 96 Cents during the year preceding. The average rainfall for the past 5 years comes to 17 Inches and 68 Cents. The mousoon set in, in May and continued up to September. The month of August alone measured 6 inches and 7 Cents, while during the other months there were only a few cents in each month; thus the rains not being sufficient and evenly distributed the year turned out to be one verging on Famine. In Khakhrechi the September shower did much good to the Juwari and cotton crop.

Wages & Labour.

63. The wages remained very high of every kind of labour and consequently though Test Work has been opened by the Taluka for the Mianas seeking for labour the number taking advantage of the same is not a large one since though the year is

bad however, most of them had a fair harvest so as to allow them to pull on till the next monsoon if carefully used.

Prices of cereals.

64. The prices of all kinds of Cereals were higher than those during the last year. This is mainly due to the scanty harvest of the year and also on account of the difficulty of obtaining them from outside places even with permits granted by the Kathiawar Special Famine Officer. Most of the food-stuffs were brought from Wadhwan Camp. Bhavnagar, Karachi and Bombay.

Customs Revenue.

65. The Customs Revenue this year rose from Rs. 38759 in the preceding year to Rs. 56849 during the year under report. This is mainly due to the good harvest of cotton of the Samvat year 1974.

Condition of people.

66. Though the year proved one of scarcity the people have been able to meet their requirements out of the money realised from the surplus of cotton of the previous year. As regards the health of the people the Influenza epidemic which raged very furiously from October to December took a very heavy toll from the number of the population.

Kutcha Press.

67. A Bania of Wadhwan who intended to erect a Cutcha Press at Khakhrechi and had brought materials for the purpose, but could not fulfil his promise on account of his illness as well as indisposition among his family members. It is reported that he has now abandoned that idea.

CHAPTER V.

REVENUE AND FINANCE.

Revenue.

68. The total gross Revenue for the St. year 1974 including adjustments remissions and recoveries of outstandings and Tagavi etc. amounted to Rs. 346062 as against Rs. 320861 during the preceding year. Excluding adjustment etc. the net cash realizations during the year amounted to Rs. 301294 as against Rs. 205613 in the previous year.

Debts.

69. The following table will supply the information regarding indebtedness of the Taluka at the end of Samvat year 1974 ending 31-1-18 as well as on 31-3-19.

No.	Nature of the debt.	Due on 30-11-18	Due on 31-3-19
1	New Government Loan of St. 1971-72.	30651-0-0	0-0-0
2	Local Fund Loan.	139949-0-0	131793-0-0
3	Old Cutch Karaj.	28011-0-0	28011-0-0
4	Wawania Port Trust Fund.	17500-0-0	17500-0-0
	Total...	216111-0-0	177304-0-0

Repayment of Debts.

70. 61663 were paid in lieu of Loan Debts including interests during the Revenue year ending 31st October 1918, and Rs. 40000 including interests were paid in January last to wipe off Government Loan Debts and to pay the balance in Local Fund Loan debt. The Political Agent Halar expressed his satisfaction for paying the instalments notwithstanding the scanty year. No Loan was applied for but on the contrary the Government Tribute and Junagadh Jortalbi amounts have been paid. This really shows the economic and careful supervision in minimising expenditure under all Heads and not sanctioning any amounts that would lead to luxury or extravagance.

CHAPTER VI.

Hospital & Dispensary

71. The Maliya Dispensary continued to be in charge of the qualified Sub Assistant Surgeon Mr. Mangalprasad Revashanker Chhaya during the whole year. He has done his work carefully and well.

Sanitation.

72. The State Medical Officer looks to the sanitation of the town and cleaning of the streets in the town is done by a staff of sweepers under the supervision of the Municipal peon. In Khakhrechi the premises of offices and of the State buildings are cleaned by paid sweepers, whereas the town is cleaned by Bhangis on renumeration settled by private arrangement. The general health of the people of the Taluka was good except during the months of October to December when the Influenza epidemic raged in full force. It was particularly bad in Maliya , Wadharwa, Kajarda and Khakhrechi.

Vaccination.

73. The vaccination work was carried out as usual by the Agency Vaccinator under the supervision and control of the Agency Surgeon. 284 children were vaccinated during the year under report as against 497 in the preceding year. There were

no re-vaccinations during the year under report. The number vaccinated this year is less on account of the late arrival of the Vaccinator due to the Influenza epidemic ; since it is stated that some time is necessary to get the children stronger.

Births & Deaths.

74. Appendix XXIV gives details of the births and deaths and their ratios per thousand of population. There were 345 births during the year under report as against 424 in the preceding year. The deaths registered during the year under report were 1096 as against 342 in the previous year. The heavy mortality of 806 out of the above number was due to the Influenza epidemic. The ratio of birth per thousand was 28·43 as against 34·94 during the last year, while the ratio of deaths per thousand was 90·32 as against 28·18 in the previous year.

CHAPTER VII.

EDUCATION.

Education.

75. Appendix XXV furnishes the information regarding the schools maintained by the Taluka. No new school has been added to the list, so, the number remained the same as shown in last year viz:-7 for boys and 2 for girls. The total number of boys attending Schools during the year under report was 414 while that of the girls 96 as against 418 and 107 respectively during the previous year. The slight decrease in the number calls for no explanation. The Head Master of the Composite School and the Head Mistress of the Girls' School Maliya have been transferred and the new ones have taken their places. The Schools of the Taluka were examined by the Senior Assistant Educational Officer in February last, and the results were not so bright as could be expected. The total expenditure on account of education during the year under report was Rs. 3615 as against Rs. 3632 in the previous year. The Educational Department of the Taluka is under the control of the Agency Educational Officer and the Taluka pays its Varad along with other III and IV class Talukas. In addition to 9 Schools mentioned above there is one private school at Kajarda and one school at Kataria a co-shared village in Vagad under Cutch.

CHAPTER VIII.

Library.

76. There is a small Library maintained by the Taluka. The Library has been registered according to the rules in force in that connection.

Printing Press.

77 There is no Printing Press here nor is any News paper published in the Taluka.

Excise Revenue.

78. Appendix XXI supplies the details regarding excise Revenue of the Taluka.

Receipts & Expenditure

79. Appendix XXII supplies the details of the receipts and disbursement of the Taluka. The net receipts from Heads I to VII amounted to Rs. 301294. Rs. 61663 were repaid towards the Government debt till the end of October 1918 and Rs. 40000 were paid latterly in January 1919. Due to the good harvest of the previous year, the Taluka could withstand the ravages of semi famine conditions without requiring any outside assistance. Tagavi was liberally granted to the cultivators and others who were found in need of it. Test Works were opened at the right time to give relief to those who required to be relieved on account of poor out turn of Kharif and Rabi crops.

Birth Day of His Imperial Majesty The King Emperor.

80. The Birth day of His Imperial Majesty the King—Emperor was celebrated on the 3rd June and Schools and offices were closed and the day was observed as a general holiday. Prayers were offered by the Officers and people in their respective places of worship for wishing long life to the King Emperor and success to the Allies Arms in the great World War.

81. In conclusion I should not miss this opportunity to state that the Thakore Saheb always takes keen interest in all measures requiring his personal attention and gave his timely good advice on all important points and thereby made my labours lighter. He is very keen to see to the comforts of his people and zealously works day and night to get satisfaction of all those concerned. I am highly indebted to Lt. Colonel H. W. Berthon and Major A. H. E. Mosse the Political Agents of the Halar Prant for their kind sound and sympathetic advice given whenever it was sought for. My best thanks are also due to Colonel R. S. Pottinger our worthy and kind hearted Agent to the Governor in Kathiawar for his good feelings and kind interest taken for the betterment of Maliya. I should not fail here to express my best thanks to the Heads of Departments and the subordinate Officers for their hearty and Loyal co-operation in carrying out orders given to them from time to time.

10,

Thakore Saheb Rajsinhji of Maliya

Respected Sir,

In pursuance of your wishes, I have the honour to submit the Annual Administration Report of this Taluka for the year 1919-20 A. D. (St. 1975.)

Maliya Hazur Office,
10th April 1920.

I have the honour to be,
Sir,
Your Most Obedient Servant,
JAYSUKHRAM L. PARGHI,
Kamdar Maliya.

ANNUAL

Administration Report

OF THE

MALIYA State.

For the year 1919-20.

CHAPTER I.

GENERAL AND POLITICAL.

Area...	...	...103 Square Miles.
Population ...	...	...12,134 Souls according to census of 1911.
Gross Revenue	...	...Rs. 170361 based on an average of past 5 years.
Baroda Tribute.	...	...Rs. 1,182.
Junagadh Jortalbi..:		...Rs. 185.

Total Rs. 1,367.

The Ruling Chief.

2. Thakore Saheb Shri Rajsinhji Modji the Chief of Maliya is 54 years of age. He is a Jadeja Rajput; and his forefathers came from Cutch. He has taken his education at the Rajkot Rajkumar College in its early days. His present wife is a daughter of a Jhala Girassia of Malvan, a Bhayati village of the Dhrangadhra State. He has 2 sons and one daughter. The heir apparent Kumar Shri Gumansinhji is 34 years old and is well educated at the Rajkumar College Rajkot. He resides in Rajkot as Honorary Personal Assistant of the Thakore Saheb Rajkot.

3 The heir apparent's eldest son Kumar Shri Harischandrasinhji is prosecuting his studies at the Rajkumar College Rajkot, where his progress is reported by the Principal of that Institution to be very satifac-

tory; and is also reported to be getting stronger and shows more activities in games and sports.

4. The youngest Kumar of the Thakore Saheb, Balvirsinhji is 18 years old. He was at the Talukdari Girassia School, Wadhwan Civil Station for the whole year. His progress is reported to be good by the Superintendent of that Institution. Kumar Shri Balvirsinhji had a very strong attack of fever when he had been to Banswara to fetch Kunveri Shri Devkunverba Saheb since she had not come after her marriage with H. H the Maharawal Shri Prithisinhji Saheb. But by the favour of God he recovered. This illness has considerably reduced him.

5. Kumar Shri Ranjitsinhji the eldest son of K. S. Nathaji a cousin of the Thakore Saheb was also studying at the Talukdari Girassia School Wadhwan Camp and his study is reported to be also good.

6. BaMaSaheb Subjiba Saheb, the widow of the late Thakore Saheb resides at Khakhrechi as before. She enjoyed good health throughout the year, and paid occasional visits to Maliya staying for a few days as occasions required.

7. Kunvari Shri Harikunvarba, daughter of K. S. Nathaji a cousin of the Thakore Saheb, was married to Chudasama Pathubha Manubha the Talukdar of Rojka under Dhandhuka of the Ahmedabad Collectorate in the month of June 1919, in place of her sister Fulkunverba who died of influenza in 1918.

Tour of the Thakore Saheb.

8. The year being one of semi scarcity the Thakore Saheb for the sake of economy gave up the idea of resorting to a sea faring place for the betterment of his health but occasionally moved about within the Taluka to look after the well being of his subjects.

Political Agent's tour.

9. Major A. H. E. Mosse the Political Agent Halar Prant, arrived here in his official district tour on the 30th November 1919 and stayed here for 8 days. On the 3rd December 1919 he held a Darbar to deliver Kamdar Rao Saheb Jesukhram Laxmiram Parghi the Badge and the Sanad of Rao Saheb conferred upon him by the Benign British Government on 1st January 1919 in recognition of his good services, when Major Mosse the Political Agent Halar made a speech to the following effect—

Thakore Saheb, Ladies, Bhayats and Gentlemen,

I have this day invited you to attend the performance of a very pleasant ceremony of presenting Mr. Jeysukhram with the Badge and Sanad of Rao Saheb conferred upon him by the Benign British Government in recognition of his good and able services to this Taluka for the last 4 or 5 years as Kamdar.

It is not a matter of an ordinary occurrence for a Kamdar of a Native State to secure the honour of such a title; but this is an exception in consideration of the special circumstances due to the fact that nearly 1/3 of the subjects of this Taluka consist of Mianas.

Our Miana friends are a warrior class and in old times they were considered as brave as tigers. Whenever any strong and fat bull was sighted they would immediately run after him to hunt him down and the surrounding people were also considered as such: but at present these so called tigers and fat bulls have now become very tame like young ones of these animals; and it is the duty of the Benign British Government to save the bulls from the paws of the tigers. With this object in view my friend the deceased Major O'Donnell when formerly Administrator in Maliya had felt the painful necessity of dealing with these Mianas very severely which some of the Mianas present here are likely to remember.

The tigers are still the same but they have learnt to live in harmony with their neighbours yet they should not forget the advice of Government which appertains to the fact that they are to live in peace and harmony with the Thakore Saheb who assists them during famine and it is also the duty of the Thakore Saheb and the Kamdar who have to wisely and cleverly administer justice with strong hands to assist the Mianas in times of need.

Mr. Jeysukhram has proved to be such a Kamdar and in recognition of his valuable services as such the Benign British Government were pleased to confer upon him this Title.

The Badge and the Sanad were next delivered to Rao Saheb Jeysukhram who bowed down and accepted them gratefully.

A translation of the above was read over by the Shirestedar Halar Prant.

The address was then replied to in appropriate terms by the Kamdar Rao Saheb Jeysukhram in English and at the desire of the Political Agent Halar its translation was also made by him.

The ceremony terminated with the distribution of Pan Sopari. Three cheers were given for his Imperial Majesty the King Emperor and also for Major and Mrs. Mosse when they left the Rajgadh.

Races and sports.

10. In the afternoon of the 7th December 1919 sports were held under the Presidentship of Major Mosse the Political Agent Halar Prant. A decent Shamiana was erected in an open space outside the Vandhia Gate. The place was gaily decorated Major Mosse accompanied by Mrs. Mosse and the Thakore Saheb arrived at the hour appointed. In all there were 12 kinds of sports which were successfully competed. The prizes in cash were idstributed by Mrs. Mosse to the successful winners.

Kamdar's Trip.

11. The Kamdar paid official visits to all the villages of the Taluka as was found necessary and had also proceeded to Ahmedabad in connection with some dispute between the Head of the Swami Narayan sect at Ahmedabad and the Managers of the Temple of the sect at Muli since the Thakore Saheb is a disciple of that sect. He had also proceeded to Rajkot in the month of March last to pay a visit to Major Mosse who was proceeding home on leave.

The Birthday of the Thakore Saheb

12. This day was observed as a general holiday and a Darbar was held in commemeration of the auspicious event.

Visit of Chiefs.

13. His Highness the Maharaja Saheb of Banswara Son-In-Law of the Thakore Saheb came here on 24th February [redacted] to take BaSaheb and stayed here for 4 days.

Halvad Maliya Railway.

14. Mr. H. Edwards who was deputed by the Government of India to survey the projected Railway line from Halvad to Maliya and Maliya to Wankaner arrived here in month of June 1919 and stayed for 8 days. He had submitted a report with his opinion to Government in the matter. The line is now sanctioned and the work will be taken in hand at an early date which will be of great utility to the Travelling Public and the merchants in exporting and importing goods from and into Bombay and other trading centres.

Installation Day of the Thakore Saheb.

15. In commemeration of this eventful day the Thakore Saheb announced various gifts to State officials and his personal attendants and the salaries of officers and ministerial servants were raised as was found necessary in consideration of high prices ruling in the country.

16. As directed by the Benign British Government the 13, 14/15 and 16th December were observed as Peace holidays here, when offices and Schools were closed. Races of boys and girls were arranged in the Darbargadh and prizes to the successful boys and girls were distributed by the Thakore Saheb. Sweetmeats were freely distributed to the boys and girls and the poor were fed in the Mahajan Dharamshala.

Complaints of the Mianas.

17. After the dacoity in the Tharad Taluka in February 1919 some of the persons alleged to have taken part in it, were, it was reported, taking refuge with their relatives and friends within the limits of this Taluka. In order to rarest these men if it were true, strict measures were adopted, but the Mianas did not like this action of the Darbar: and some of the Mianas dissatisfied for the reason stated above entered the Morvi State service and their stationing on the borders of this Taluka facilitated the raising of ill feeling and unrest here it is stated with the assistance of the absent dacoits. To remedy their unthoughtful action the Political Agent Halar was addressed to advise the Morvi State to desist from enlisting the Mianas and posting them on the Maliya boundary and I am glad to say that his advice was acted upon. At the instigation of some intriguing persons the Mianas also submitted petitions to the Political Agent Halar laying forth unfounded complaints. These were inquired into in details by him when here and found all the complaints to be almost entirely groundless. He also advised them to maintain harmonious relations with the Darbar and not be led away by intriguing persons who have their own ends to serve.

Arrest of 2 Khadol Dacoits.

18. The State Chief Constable receiving informations from his detectives that Jam Musa one of the alleged absent Khadol dacoits had taken shelter in a Vandh on the other side of the river communicated it to the Thakore Saheb and with his approval proceeded with a party of the Police to arrest him if found. Jam Musa on seeing the Police Party and the Chief Constable left his hiding place and moved towards Ladhani Mulia's Vandh. He was pursued by Police Dafedar Devasing and Arab Jamadar Narsar when Ladhani Mulia (another absent dacoit) came out of his Vandh and both tried to escape but were followed by horse and camel sowars. The pursuers firing on the dacoits they took shelter in different pits of the Vekla. Dafedar Devasing with some Police men surrounded Mulia and the foot Police surrounded Musa to prevent their escape. As

the hiding place of the dacoits could not be reached and the Police could not apprehend them the Thakore Saheb was informed of the matter when he proceeded to the spot and tried to pursuade the dacoits to surrender but as they did not heed his advice firing was renewed on both sides. Some stray shots even went in the direction of the Thakore Saheb. Finding that it was not possible to apprehend these persons without stricter measures the Thakore Saheb accompanied by the Chief Constable and other Police men attacked Musa and deprived him of his arms, and then attacking Mulu secured him also. On reporting to the Agency the good services of the Police the Political Agent Halar replied under his No. J/9 dated 23-3-20 congratulating the Thakore Saheb also informing that the Agent to the Governor was also informed of it. This has greatly pacified the minds of the people. Efforts are also being made toapprehend the other dacoits who are similarly at large.

19. Mr. Kalianrai Mahipatram Oza the Nyayadhish having resigned his appointment was succeeded by Mr. Valabhdas Madhavji Vohora and he remained in office till the end of the year.

Personnel of the Administration Staff.

CHAPTER II

20. The Chokha Bhag system of recovering State share in kind continues and is working satisfactorily, since it involves no further responsibility on the cultivators. In fact a good year's revenue is appreciably much higher than that of a normal year and hence the necessity of resorting to coercive measures rarely arises.

Revenue and Settlement

21. During the year under report the monsoon was uneven and the rainfall was only sufficient to keep the crops alive. The big tank of Malia practically got no water either from Machhu Channel or from Barar side since the raising of Motor road in the Morvi limits caused a sort of hindrance in the flowing of natural water from Morvi limits to Maliya side. The new bundh at Morvi accross the Machhu river has kept the surrounding fields un-inundated to some extent.

22. The cultivators of this Taluka are tenants at will and so long as they pay Darbar dues regularly they continue in their holdings from generation to generation, The transfer of holdings only takes place when a holder dies without male issue. They are not allowed to allienate any part of their holdings either by sale mortgage or otherwise.

Description of holdings

23. 64 Acres and 38 Gunthas of cultivable land were brought under the plough. Last year Rs. 7910 were realized as Nazrano or Sakar for the occupancy right of the land requisitioned for by the cultivators in want of more land.

24. On account of want of sufficient rain in the latter part of the monsoon no experiment for reclaiming Karadia land could be practised. Looking to the growth of grass it seems that in four or five years time the land will be quite fit for growing Kharif and Rabi crops.

25. The Taluka possesses 2/5 share in Kataria in Vagad (Cutch) where a separate Vahivatdar is maintained by the Taluka for revenue collections and for safe-guarding the interest of Maliya.

Storage of Fodder

26. The Taluka is taking all precautionary measures for storing surplus grass and in the Khalsa and Bhayati villages a good number of stacks have been added to the old number; whereas the Mianas except a very few did not care to store up grass though they have the sad experience of last previous bad year's The repeated warning and advice have proved of no avail up to now in this behalf.

CHAPTER III.

LEGISLATION.

Legislation

27. As the Taluka has not enacted all Laws for the working of the Courts the Imperial Laws are generally adopted for administering justice. Where there are no special Laws of the Taluka and when a difficulty arises in the Taluka's own Laws the spirit of the British Laws is generally followed.

29. Appendix II supplies the necessary information on the point.

MILITARY FORCE

29. No Military Force is maintained by the Taluka.

POLICE

Police.

30. With the exception of the Chief Constable there has been no change in the strength of the Police during the year under report. The ratio of Police to population was 3·9 per thousand and to area ·46 per square mile. The total cost of the upkeep of the Police during the year under report was Rs. 16586 as against Rs. 15218 in the year preceding. The increase in the expenditure over that of the last year is due to the appointment of the Chief Consta-

ble on a higher pay, the entertainment of extra Police for the arrest of dacoits, and the high prices of cloth and boots required for their equipment.

Working of the Police

31. Appendices V, VI, and VII give details of the working of the Police. The percentage of convictions to the number of accused sent up for trial was 63·1 as against 63·46 in the preceding year. The percentage of the property recovered to that of stolen during the year under report was 37·16 as against 88·64 for the previous year. As the Taluka has to cope with the Mianas who are a very dangerous and notorious class of peop'e a larger number of Police Force has to be maintained as compared with other Talukas having the same status and power. Mr. Gajanan was relieved in the month of February last by Mr. Shivlal Ganesh whose services were obtained on loan from the Agency.

Village Police.

32. The total number of Village Police was 63 on the last day of the year; out of which 55 were paid in cash while the remaining have lands assigned to them on service tenure Out of this number 16 are designated "City Police Men", who work in Maliya Town under the supervision of the Chief Constable while the rest do duty in the villages of the Taluka under the supervision of the Revenue Vahivatdars. They assist them in revenue and other duties. The work of guarding the villages and that of prevention and detection of crimes is being supervised by the Chief Constable. Of this number 49 are armed with guns and the remainder are armed with swords and knives.

CRIMINAL JUSTICE.

Criminal Justice.

There was no change in the number and constiution of the Criminal Courts in the Taluka during the year under report.

I. The Hazur Court. This Court exercises all the powers of a Fourth Class Taluka of the Kathiawar Political Agency and also hears appeals against the decisions of the subordinate Courts.

II. The Court of the Maliya Nyayadhish. This Court exercises the powers of a First Class Magistrate.

III. The Court of the Khakhrechi Vahivatdar. This Court exercises the powers of a Third Class Magistrate.

33. Appendix VIII shows the work done by the different Courts during the year under report.

34. Appendix IX shows the appellate work done by the Hazur Court.

35. It is gratifying to learn that only 4 cases remained undisposed of at the end of the year.

CIVIL JUSTICE.

Civil Justice.

36. The Taluka maintains 3 Civil Courts.

I. The Hazur Court. This Court entertains original suits in excess of the value of Rs. 5000 and also hears appeals against the decisions of the subordinate Courts.

II. The Court of the Maliya Nyayadhish entertains original Civil Suits upto the value of Rs. 5000 and registers documents to that extent. The Maliya Nyayadhish also presides as a Judge of the Bhayati Court.

III. The Court of the Khakhrechi Wahiwatdar has powers to entertain original Civil Suits up to the value of Rs. 250 of the people of the Khakhrechi Mahal.

37. No case remained in balance at the close of the year in any of the Courts.

38. Appendix X gives details of the original Civil work done by the various Courts of the Taluka, and the nature and value of the suits filed and disposed of during the year under report.

39. 46 Suits were filed during the year under report as against 66 suits filed in the preceding year, the number of suits disposed of was 64 as against 50 in the preceding year. The value of suits instituted during the year under report was Rs. 7931 as against Rs. 7221 during the previous year. The number of cases regarding landed property was 4 as against the same number in the preceding year. The average duration of suits was 8 months and 29 days.

40. Appendix XI gives the information regarding the number of execution decrees in balance from last year, those filed during the year under report and the number executed during the same as also the number remaining undisposed of at the close of the year.

There was no execution decree in balance at the commencement of the year while 17 were newly filed during the year under report as against 29 filed during the year preceding. No decree remained undisposed of at the close of the year.

Civil Appellate Work.

41. Appendix XII furnishes the information of the Civil Appellate work done by the the Taluka Hazur Court. There was no appeal in balance from last year. 2 new appeals were filed during the year under report both these appeals having been disposed of there was none in balance at the close of the year. The average period for the disposal of the Appeal was 2 months and 24 days.

Extradition.

42. 24 demands were made upon this Taluka as against 9 in the previous year. The demands were from the States of Jamnagar, Morvi, Gondal, Dhrol, Tharad, Sayla, Cutch, Bagasra and Babra Thanas. 2 persons were made over to the Taluka by the Morvi State.

Prison.

43. There is 1 Prison at Maliya and a Lock-up at Khakhrechi. The duties of the Jail Superintendent were performed by the Chief Medical Officer. The number of prisoners admitted into the Maliya Jail during the year under report was 100 as against 150 during the year preceding. The health and condition of the inmates during the year was good. The total expenditure incurred was Rs. 1743 as against Rs. 1432 during the year preceding. Appendix-XIII gives the various details in connection with the Jail.

REGISTRATION.

Registration.

44. 509 documents of the aggregate value of Rs. 110403 were registered during the year under report as against 492 of the value of Rs. 128234 during the preceding year. The registration fees realised during the year under report were Rs. 932 as against Rs. 967 during the year preceding.

45. Appendices XIV and XV furnish the full particulars on this point.

Municipality.

46. There is no regularly constituted Municipality but the Taluka has made adequate arrangements at its cost for the cleaning and lighting of the principal streets of the town. Appendix XVI shows that the expenditure for maintaining this Mnnicipality came to Rs. 1349 as against Rs. 1119 during the preceding year. The increase on this account is due to high prices of Kerosine oil and the cost of grain compensation sanctioned to the menial servants. The Medical officer supervises this work and looks to the sanitation of the town.

47. There is no forest in the Taluka but efforts are in progress to protect Babul and other trees that grow in Padtar lands and on the banks of the River Machhu. 2 men are appointed to look after the old and newly planted trees.

Forest.

48. There is no independent Public Works Department but necessary original works and repairs are executed under the supervision of the State Surveyor under the general control of the Kamdar.

49. There is no good ventilated building constructed on sanitary principles at Khakhrechi and hence the necessity of a good edifice naturally struck the Thakore Saheb's mind. With this point in view a bungalow with 2 small but decent guest houses for religious men and one comfortable house for Zenana were ordered. The work is in progress and it is hoped that before the monsoon sets in most of the work will be finished upto the roofing. The plastering etc will be done in monsoon.

Recreation Bungalow at Jadeshwer at Khakhrechi.

50. There are 3 Post Offices in the Taluka, viz. 1 Maliya, 2 Khakhrechi and 3 Wadharwa. There is a Telegraph Office combined with the Post Office at Maliya. The general Post comes via Halvad, Khakhrechi and Wadharwa to Maliya. The Post is always unusually late which causes great inconvenience in replying Bombay and outside letters. It is hoped that Postal Authorities will now give their best attention to remedy it.

Post Offices.

51. There is no mint and British Coins are in general circulation in Maliya Taluka.

Mint.

52. Ginning Factory ginned all the cotton produced in the Taluka. The Proprietors take great interest and the State has accorded them liberal treatment. The necessity of one Gin at Maliya is felt.

Ginning Factory.

53. Appendix XX shows the particulars of the agricultural stock in the Taluka. There is a good increase in all the useful agricultural animals. It is gratifying to note that the effect of the scarcity did not turn out to be as disappointing as it was feared.

Agricultural Stock.

CHAPTER IV.

PRODUCTION AND DISTRIBUTION.

54. The rainfall for the whole year amounted to 18 Inches and 96 Cents as compared with 7 Inches and 41 Cents during the year preceding. The average rainfall for the past

Water & Crops.

5 years came to 17 Inches and 92 Cents. The monsoon set in June 1919 and continued up to the month of September. The rains came in drizzles, there was not spontaneous flow in Machhu on account of a Dam thrown accross it at Morvi and the making of Motor roads in Morvi State limits the flow diverted in another direction with a result that the Maliya tank remained quite empty and great difficulty is experienced for drinking water.

Wages & Labour.

55. The wages remained abnormally high throughout the year. The State could not get sufficient number of labourers for its Public Works Department and hence the constructions of Bharatsinhji Vegetable Market and the Ravji Dharamshala had to be postponed.

Prices of cereals.

56. The prices of all kinds of cereals remained high upto February then there was a fall and latterly the prices of the principal food-stuffs were reduced by about 40 percent.

Customs Revenue.

57. The Customs Revenue this year came to Rs. 27480 as against Rs. 56849 in the preceding year. This decrease was due to a lean or a semi scarcity year.

Condition of people.

58. The condition of the people was on the whole good; there were only few cases of Pneumonia on account of excessive cold in the cold season.

CHAPTER V.

REVENUE AND FINANCE

Revenue.

59. The total gross Revenue for the St. year 1975 including adjustments remissions and recoveries of outstandings and Tagavi etc. amounted to Rs. 167115 as against Rs. 346062 during the preceding year. Excluding adjustment etc. the net cash realization during the year amounted to Rs. 136018 as against Rs. 301294 in the previous year.

Debts.

60. The following table will supply the information regarding indebtedness of the Taluka at the end of the St. year 1975 ending 30—10—19 as well as on 31—3—20.

No.	Nature of the debt	Due on 31-10-19	Due on 31-3-20
1	Local Fund Loan.	131037	81037
2	Old Cntch Karaj	26761	26761
3	Wawania Port Trust Fund.	17500	17500
	Total Rs.	175298	125298

Repapment af Debts.

61. Rs. 50000 were paid in Local Fund Loan including the interests in January last. The Taluka requested for some remissions in Local Fund debt, since a large amount was paid on account of interest. The application was supported by the Agency authorities but the Government were not pleased to grant any such remission.

CHAPTER VI

Hospital & Dispensary.

62. The Maliya Dispensary continued to be incharge of Sub Assistant Surgeon Mr. Mangalprasad R, Chhaya up to the end of December. On his reversion to Chock in Agency service Mr Liiadhar Velji Sheth was appointed by the Taluka and he joined in the begining of January.

Sanitation.

63. The Medical Officer looks to the sanitation of the town and cleaning of the streets in the town is done by a staff of sweepers under the supervision of the Municipal peon. In Khakhrechi the premises of Offices and of the State buildings are cleaned by paid sweepers, whereas the town is cleaned by Bhangis on remuneration settled by private arrangement. The general health of the people of the Taluka was generally good throughout the whole year.

Vaccination.

64. The vaccination work was carried out as usual by Vaccinator under the supervision and control of the Agency Surgeon. 351 persons were vaccinated during the year under report as against 384 in the preceding year. There were no revaccinations during the year under report. There was no epidemic of Small Pox during the year.

Births and deaths.

65. Appendix XXIV gives details of briths and deaths and their ratios per thousand of population. There were 312 births during the year under report as against 345 in

the preceding year. The deaths registered during the year under report were 249 as against 1096 in the previous year. The ratio of birth per thousand was 25·71 as against 28·43 during the last year, while the ratio of deaths per thousand was 20·52 as against 90·32 in the previous year.

CHAPTER VII.

EDUCATION.

Education.

66. Appendix XXV furnishes the information regarding the schools maintained by the Taluka. No new school has been added to the list, so, the number remained the same as shown last year, viz. 7 for boys and two for girls. The total number of boys attending schools during the year under report was 415 while that of the girls 101 as against 414 and 96 respectively during the previous year. The Maliya Composite School, the Khakhrechi school and the 2 girls schools were examined by the the Senior Assistant Educational Officer in the month of November last, whereas the village schools of Wadharwa Kumbharia and Nawagam were examined by the Head Master Composite Schools Maliya according to the arrangement sanctioned by the Agent to the Governor with the approval of the Karbharis. The total expenditure on account of education during the year under report was Rs. 3906 as against Rs. 3615 in the previous year. The Educational Department of the Taluka is under the control of the Agency Educational Officer and the Taluka pays its Varad along with other III and IV class Talukas. In addition to 9 schools mentioned above there is one private school at Kajarda and one school at Kataria a coshared village in Vagad under Cutch. But since no Miana boys took interest in learning the school at Kajarda is ordered to be closed this year.

CHAPTER VIII.

Library.

67. There is a small Library maintained by the Taluka. The Library has been registered according to the rules in force in that connection. The Government Gazette and other publications are supplied gratis to it.

Printing ress.

68. There is no Printing Press here nor is any Newapaper published in the Taluka.

Excise Revenue.

69. Appendix XXI supplies the details regarding excise Revenue of the Taluka.

Receipts & expenditure

70. Appendix XXII supplies the details of the receipts and Disbursements of the Taluka. The net receipts from head 1 to VII amounted to Rs. 136018. Rs. 50000 were paid in the Local Fund Loan Debt in January last.

majesty

Birth day of His Imperial Majesty the King Emperor.

71. The Birth day of His Imperial the King Emperor [redacted] was celebrated on the 3rd June 1919 and schools and offices were closed and the day was observed as a general holiday.

72. In conclusion I should not miss this opportunity to state that the Thakore Saheb takes keen interest in all measures requiring his personal attention and gave his timely good advice on all important points and thereby made my labours lighter. I am highly indebted to Major, A. H. E. Mosse and Major, R. J. C. Burke the Political Agents Halar Prant for their kind and sympthetic advice given whenever it was sought for, taking interest in Maliya offairs. My best thanks are also due to E. Mechonochie, Esquire our worthy and kind hearted Agent to the Governor in Kathiawar for his good feelings and kind assistance given for the betterment of Maliya. I avail myself to express my sincere and best thanks to all the Heads of Offices and the subordinate staff for their zeal and hearty co-operation in the discharge of their duties.

Maliya
Hazur Office
10th April 1920

JAYSUKHRAM I. PARGHI,
Kamdar Maliya.

FROM,

Venishanker Harishanker Vaishnav

KAMDAR MALIYA.

TO,

THAKORE SAHEB SHRI RAJSINHJI.

MALIYA.

RESPECTED SIR,

In pursuance of your wishes I have the honour to submit the Annual Administration Report of the Maliya State for the year 1920-21 A. D. (St. 1976).

Maliya Hazuı Office. }
16th May 1921. }

I have the honour to be
Sir,
Your most obedient servent
VENISHANKER H. VAISHNAV
Kamdar Maliya.

ANNUAL

ADMINISTRATION REPORT

OF THE

Maliya State.

For the year 1920-21.

CHAPTER I.

GENERAL and POLITICAL.

Area...	...	... 103 Square Miles.
Population ...	...	...12,634 Souls according to Census of 1921.
Gross Revenue	...	...188366 Based on an average of past five years.
Baroda Tribute.	...	...Rs. 1,182.
Junagadh Jortalbi ...		...Rs. 185.
		Total Rs. 1,367.

The Ruling Chief.

2. Thakore Saheb Shri Rajsinhji Modji the Chief of Maliya is 55 years of age. He is a Jadeja Rajput, and his forefathers came from Cutch. He has taken his education at the Rajkumar College Rajkot in its early days. His present wife is a daughter of Jhala Girassia of Malvan, a Bhayati village of the Dhrangadhra State. He has two sons and one daughter. The heir apparent Kumar Shri Gumansinhji is 35 years old and is well educated at the Rajkumar College Rajkot. He now resides at Rajkot.

3. The heir apparent's eldest son Kumar Shri Harishchandrasinhji is prosecuting his studies at the Rajkumar College Rajkot, where his progress is reported to be satisfactory by the Principal of that Institution; He is also reported to be getting stronger and showing more activities in games and sports.

4. The youngest Kumar of the Thakore Saheb, Balvirsinhji is 19 years old. He was at the Talukdari Girassia School Wadhwan for the whole year. His progress is reported to be good by the Superintendent of that Institution.

5. Kumar Shri Ranjitsihhji the eldest son of K. S. Nathaji a cousin of the Thakore Saheb was also studying at the Talukdari Girassia School Wadhwan Camp. His study is reported to be fair.

6. Bama Saheb Subjiba Saheb, the widow of the late Thakore Saheb resides at Khakhrechi as before. The sad demise of her Grandson Jorawarsinhji the late Thakore Saheb of Chuda which took place at Chuda through heart failure on the 21st December 1920 was a severe blow to her and has told much upon her health. She had been to Chuda on a condolence visit on the 24th December last to console her daughter Majirajba mother of the late Thakore Saheb of Chuda on the 13th March 1921 staying there nearly 3 months.

Tour of the Thakore Saheb

7. The out turn of crops for the year being lean the Thakore Saheb for the sake of economy gave up the idea of resorting to a sea faring place for the betterment of his health which was pulled down owing to heavy work. The death of his nephew Jorawarsinhji late Thakore Saheb of Chuda on the 21st December last was also a very severe blow. The Thakore Saheb had been to Chuda on the 24th December last on a condolence visit to his sister Basaheb Majirajba. He returned from Chuda on the 2nd January 1921.

8. Again in the month of September 1920 he proceeded to Rajkot for consulting the Political Agent Halar and the Agent to the Governor in Kathiawar as to the steps to be taken for the annihilation of the gang of badmashes giving trouble to this as well as the surrounding States in Kathiawar and and with this view with the advice of the Agency obtained for a limited period the loan of the services of Mr. Amantullah, a first class Agency Chief Constable, to work as Superintendent of Police Maliya assisted by a special party of 15 units of the Agency Police. He returned here on the 8th September 1920.

9. The Thakore Saheb visited Wadhwan Camp and Ahmedabad in connection with some dispute between Acharya Shri Vasudevprasadji his religious preceptor and the head of the Swaminarayan temple at Ahmedabad and the Managers of the the temple of the sect at Muli

Political. Agents' Tour

10. Lt. Colonel H. S. Strong the Political Agent Halar Prant arrived here in his official district tour first on the 4th December last but on account of an urgent call from the Agent to the Governor he had to return to Rajkot soon staying only four days. He again came here on the 2nd February 1921 and stayed here till 10th. He left for Khakhrechi in the afternoon of the 10th. He stayed their for the 11th and left for Morvi on the 12th February 1921.

Birthday of the Thakore Sahob.

11. This day was observed as a general holiday. No Darbar was held as the Thakore Saheb and his family were in mourning on account of the death of Thakore Saheb Jorawarsinhji of Chuda.

Halvad Maliya Railway.

12. The Government having sanctioned the Halvad Maliya extention of the Dhrangadhra State Railway to be constructed by the Dhrangadhra State, the latter has obtained the loan of the services of Mr. H. E. Edwards for the purpose and the work is likely to be taken in hand soon. When ready, this line will form a direct route for traffic between Cutch and other parts of the Bombay Presidency as well as Kathiawar.

Personnel of the administration staff.

13. Mr. Vallabhdas Madhavji Vohra the State Nyayadhish having resigned on account of indifferent health, Mr. Kalianrai Mahipatrai Oza was recalled and appointed instead in the beginning of the year and worked as such till the end of the year.

14. Rao Saheb Jaysukhram Laxmiram Parghi continued as Kamdar till the end of August. He first proceeded on 2 months' leave from 1st of September 1920 for the betterment of his health and then tendered his resignation from 1st November 1920. The State Nyayadhish Mr. Kalianrai Mahipatrai Oza was appointed to do the current work of the office, in addition to his own duties and he has performed these duties to the end of the year. Mr. Venishanker Harishanker Vaishnav B. A. LL. B. Manager of Jasawala Estate Jetpur who was appointed as Kamdar joined his appointment on the 1st April 1921.

15. On the appointment of Mr. Amantullah as Superintendent of Police Maliya, the Agency had ordered the reversion of Mr. Shivlal Ganesh who was working here as Chief Constable of Police.

16. In order that Mr. Amantullah the Superintendent of Police may be able to direct his whole and undivided attention to the annbilation of

the Gang of Badmashes who were infesting the country far and wide, for carrying on the office work of the Police Department, a post of a Fouzdar was newly created and Mr. Mahmad Sharif Fozdar at Khirasra was appointed as such and continued in office till the end of the year.

CHAPTER II.

Revenue and Settlement.

17. The system of recovering from the cultivators, the state share of the produce of their fields in kind by Chokha Bhag continued and worked satisfactorily. This system does not raise the necessity of recovering states rights from the cultivators by coercive measures as they have only to give a certain share of whatever is actually produced in the lands in their possession.

Description of Holdings.

18. The system of continuing the fields in the possession of their original occupants from generation to generation so long as they regularly pay the defined share to the State, continues. They are tenants-at-will and have no right to transfer their holdings by sale or mortgage. Rupees 5711 were realised as Najrano by transfering lands given up by cultivators on account of indebtedness or migration to other territories.

19. This taluka has 2/5 share in Kataria a village in Vagad under Cutch. A separate Vahivatdar is maintained there for its management. He works conjointly with the officers of the other 3/5 shareholders of the village and safeguards the interest of this taluka.

20. There was not much surplus grass on account of want of rain and consequently none was stacked for future use.

CHAPTER III.

LEGISLATION.

Legislation.

21. The laws in force in Kathiawar Agency are generally followed as the Taluka has enacted no laws of its own, except certain special rules and regulations which have been framed, regard being had to the local condition of the Taluka.

22. Appendix II gives requisite information in this connection.

MILITARY FORCE.

23. This Taluka does not maintain any military Force.

POLICE

24. With the exception of the reversion of the Chief Constable and the appointmennt of the Superintendent of Police since September last, and a new Fozdar, there has been no change in the strength of the permanent regular police of the Taluka. A special party of 15 units of the Agency Police has been obtained on loan to assist the Superintendent of Police in the work of bringing to book the gang of marauders consisting of Mianas and Kathis who are committing depredations in different parts of Kathiawar. A few village police have also been specially engaged for the same purpose. The ratio of Police to population was 3·9 per thousand, to area ·46 per square mile. The total cost of the up-keep of the regular police during the year under report was Rs. 18610 against Rs. 16586 during the previous year. The increase in expenditure over that for last year is mainly due to the appointment of Superintendent of Police on Rs. 250 p. m. with pension contribution and travelling allowance according to the Civil Service regulation instead of a Chief Constable who was paid Rs. 80+10 p. m. It is also due to the high prices of cloth and boots purchased for equipping the members of the regular police force of the Taluka as well as to the increment given to the members of the ragular Police. This Taluka having to control the mianas who are mostly habitual criminals, has to maintain a larger police force at a heavier expense in comparison with those maintained by other Talukas with similar status and power.

Working of the Police.

25. Appendices V, VI and VII show the details of the working of the Police. The percentage of convictions to the number of accused sent up for trial was 58·62 against 62·1 for the preceding year. The percentage of property recovered to that stolen during the year under report was 14·69 against 37·16 for the previous year.

Village Police.

26. The total number of village police was 63 on the last day of the year, out of which 55 were paid in cash while the rest have lands assigned to them on service tenure. Out of this number, 16 are designated as "City Policemen" who do duty in Maliya town under the direct supervision of the head of the Police while others are posted in the villages of this Taluka who work under the immediate supervision of the Police Patel and assits the Revenue Vahivatdars in their work. The work of guarding the villages and of the prevention and detection of crimes is supervised by the the head of the Regular Police. Of this 49 are armed with guns and the rest with swords and knives. For

the safety of the village people and the travellers it is necessary that all should be armed with guns during such troublesome times as nothing can be done with swords and knives against marauders possessing good rifles.

CRIMINAL JUSTICE.

27. No change was effected during the year under report in the number and constitution of criminal courts of the Taluka.

I. *The Hazur Court.*—This court exercises all the powers of a 4th class Taluka of the Kathiawar Agency and also hears appeals against the decisions of the subordinate courts.

II. *The Court of the Maliya Nyayadhish.*—This Court exercises the powers of a first Class magistrate.

III. *The Court of the Khakhrechi Vahiwatdar.*—This Court exercises the powers of a 3rd Class Magistrate.

28. Appendix VIII shows the work done by the different courts during the year under report.

29. Appendix IX shows the appellate work done by the Hazur Court.

CIVIL JUSTICE.

30. The Taluka maintains 3 Civil Courts.

I. *The Hazur Court.*—This Court entertains original suits of the value in excess of Rs. 5000 and also hears appeals against decisions of the subordinate courts.

II. *The Court of the Maliya Nyayadhish.*—This court entertains original civil suits up to the value of Rs. 5000. and also registers documents upto the same amount. The Maliya Nyayadhish also presides as Judge of the State Bhayati Court.

III. *The Court of the Khakhrechi Vahiwatdar.*—This court entertains civil suits upto the value of Rs. 250 within the limits of the Khakhrechi Mahal only.

31. Appendix X gives details of the civil work done by the different courts of the Taluka and the nature and value of the suits filed and disposed of during the year under report.

32. The arrears in the work of the Court of Maliya Nyayadhish are due to the fact that Raosaheb Jayasukhram the permanent Kamdar having first gone on leave and then resigned owing to ill-health, the charge of

both the courts was with the Maliya Nyayadhish for nearly eight months during the year He had to look not only after the Judicial work but other executive and census work also.

33. During the year under report 58 suits were filed against 46 filed during the previous year. The value of suits filed during the year under report amounted to Rs. 10182 as against Rs. 7931 for the preeeding year. The number of cases for landed property was 6 against 4 for the last year. The average duration of suits was 0-3-8. y. m. d.

34. Appendix XI contains particulars in connection with the number of applications for the execution of derees in balance from last year, those filed during the year under report, the number disposed of during the same and the number remaining undisposed of at the close of the year.

35. At the commencement of the year under report there was no application for the execution of decrees in balance while 49 were filed during the same as against 16 filed during the previous year. Out of those filed 47 having been disposed of during the year and 2 remained in balance at the close of the year.

36. Appendix XII furnishes information concerning the civil appellate work done by the Taluka Hazur Court. There was no appeal in balance from last year. 13 new appeals were filed during the year out of which 3 were disposed of leaving 10 in balance at the close of the year. The average period for the disposal of the appeal was 5 months and 22 days.

Extradition.

37. 17 Demands were made upon this Taluka during the year as against 24 during the previous year. These demands were from Morvi, Vankaner, Rajkot, Dhrangadra and Cutch States.

Prisons.

38. There is one prison at Maliya and one lockup at Khakhrechi. The duties of the Jail Superintendent were performed by the Medical Officer. The number of prisoners admitted into the Maliya Jail during the year under report was 126 as against 100 during the previous year. The health and condition of the inmates during the year was good. The total expenditure incurred was Rs. 2314 as against Rs. 1743 during the preceding year. Appendix XIII gives the various details in connection with the Jail.

REGISTRATION.

Registration.

39. 301 documents of the aggregate value of Rs. 104037 were registered during the year under report against 509 of the value of Rs. 110403 registered during the previous year. The registration fees realised during the year under report were Rs. 724 against Rs. 932 during the last year.

40. Appendices XIV & XV furnish particulars on these points.

Municipality.

41. There is no regularly constituted municipality but the Taluka has made adquate arrangement at its cost for the cleaning and lighting of the principal and streets of the town, Appendix XVI shows that the expenditure for maintaining this municipality came to Rs. 1474 during the year under report against Rs. 1349 for the previous year. The Medical Officer of the state ex-officio supervises this work and also looks after the sanitation of the town.

Forest.

42. There is no forest in this Taluka but babuls and other trees growing on Padtar and Kharaba lands are protected from maintance by engaging 2 men to look after them.

43. The State has no regular public works department but necessary original works and repairs to old works are carried out in both the Mahals under the supervision of their respective Vahivatdars controlled by the Kamdar.

Bungalow at Jadeshvar Temple at Khakhrechi.

44. There being no suitable building at Khakhrechi the Thakore Saheb selected the site situated on the eastern bank of the Great Khakhrechi Tank for erecting a suitable recreation bungalow thereon. The building is now very nerely completed and is availed of whenever Thakore Saheb visits Khakhrechi on business or otherwise.

Post Offices.

45. There as 3 Post Offiees in the Taluka. 1 Maliya 3 Khakhrechi 3 Vadherva. There is also a combined telegraph office at Maliya. The general post comes to Maliya via Halvad Khakhrechi and Vadharva. Of late on account of the retrenchment in train service between Halvad and Wadhwan Junction only 1 train comes to Halvad. Again on account of the raids of Badmashes it is considered unsafe for foot post to travel by night. Consequently the post comes a day or at times 2 days later than originally arranged. Consequently when the Superintendent of the Post Offices, Bhavnagar Division was here on his inspection tour it was proposed to him to change the existing post route

and to adopt the original Morvi route instead of the present Halvad route. The proposal is under his consideration and when sanctioned it will remove the extra delay caused of late for reasons detailed above as it is a much shorter and a more direct route.

Mint.

46. The State has no mint of its own and British Currency is in general circulation throughout the Taluka.

Ginning factory

47. There is one ginning factory at Khakbrechi in this Taluka. It gins all the cotton produced in this. If some enterprising merchants erect another ginning factory at Maliya it would be of great advantage.

Agricultural Stock.

48. Appendix XX shows the particulars of the agricultural stock in the Taluka. The stock though steadily increasing from year to year has slightly decreased on account of small pox epidemic. Fears were once entertained that scarcity of rain and consequently of fodder would seriously affect these cattle which are the real wealth of the country, but no appreciable decrease is seen on this account.

CHAPTER IV.

PRODUCTION and DISTRIBUTION.

Water & crops.

49. The total rainfall during the last monsoon season was 15·94 inches against 18·76 inches in the preceding year. The average rainfall of the past 5 years was 18·83 inches, vide Appendix XVII. Of late years the monsoons have been more conspicuous for their fickleness and uncertainty then steadiness and regularity which were their ordinary features before the dire famine of Chhapania. The last monsoon was no exception to that. The monsoon set in in June and continued upto the Middle of August. There were never very heavy rains and the River Machhu had never been in high floods on the Maliya side owing to the dam constructed near Morvi. The great tank at Maliya remained almost empty and great hardship is being experienced for drinking water.

50. As there was no rain since the latter half of August the Kharif crops began to wither and yielded very poor out-turn. Yet in the face of all this the cotton crops were very promising upto the end of October but the hot blasts of winds that blew during the first week of November heavily marred the prospects and the out turn of this very valuable crop has hardly been six annas in a rupee.

51. The growth of grass was also very poor and it will be with some difficulty that the local cattle will be able to pull on with it till the new grass sprouts up, but previous stocks being on hand it will not be necessary to import fodder from outside.

Wages and labour.

52. The wages remained the same as during the last year and this accompained by poor out turn of cereals has kept up the high prices of all food stuffs.

Prices of cereals.

53. Appendix XVIII shows the ruling prices of the staple food grains in the state.

Customs Revenue.

54. The customs revenue for this year amounted to Rs. 47758 against Rs. 27480 for the previous year.

Condition of the people.

55. The health and condition of the peaple were good throughout the year.

CHAPTER V.

REVENUE and FINANCE.

56. The total gross from the revenue year St. 1976 including adjustments, remissions and recoveries of outstandings and tagavis etc. amounted to Rs. 263930 against Rs. 167115 during the preceding year. The net cash realization during the year amounted to Rs. 231677 against Rs. 136018 in the previous year which will show that the realisation has greatly increased which is mainly due to the timely and well distributed monsoon.

Debes.

57. The following table furnishes information regarding the indebtedness of the Taluka at the end of Samvat year 1976 ending 31-10-1920 as well as the official year ending on 31-3-21.

No.	Nature of debt.	Due on 31-10-20	Due on 31-3-21
1	Local Fund Loan.	87929	87929
2	Old Cutch debt.	23261	23261
3	Vavania Port trust fund.	17500	17500
	Total ...	128690	128690

58. As the prospects for the year appeared very poor nothing has been paid towards repayment of the existing debt. More so as the prices of cotton and cereals having gone down abnormally the State considered it advisable to postpone the sales of its Vaje levied in kind from cultivators. Thus the cash realisation of the year on their account are in abeyance.

Repayment of Debts.

CHAPTER VI.

At the opening of the year under report the Maliya Dispensary was incharge of the Sub-Assistant Surgeon Mr. Liladhar Velji Sheth. He having resigned the service Mr. Samuel Daniel a retired medical practitioner was put incharge of the dispensary pending the appointment of a suitable qualified man for the post, and having secured one such in Mr. Ravishanker Ishwarlal Bhatt L. C. P. & S. Mr. Samuel was relieved of the charge on 5-3-21.

Hospital & Dispensary.

The Medical officer of the State also looks after the Sanitation of the town. The cleaning of the town is done by a staff of Sweepers under the supervision of the Municipal peon. In Khakhrechi the premises of offices and State buildings are cleaned by paid Sweepers while the town is cleaned by Bhangis on remuneration settled by private arrangement. The general health of the people of the Taluka was good throughout the year.

Sanitation.

The Vaccination was carried out as usual by the Vaccinator under the control & Supervision of the Agency Civil Surgeon. 462 persons were Vaccinated during the year under report as against 351 during the previous year. There were 3 re-vaccination during the year under report.

Vaccination.

Appendix XXIV contains details of births and deaths and their ratios per thousand of population. There were 325 births during the year under report against 312 in the preceding year. The deaths as registered during the year under report were 227 as against 249 in the previous year. The ratio of birth per thousand was 25·67 as against 25·71 during the preceding year while the ratio of deaths per thousand was 17·93 as against 20·52 for the previous year.

Births and Deaths.

CHAPTER VII.

EDUCATION.

Education.

Appendix XXV furnishes information regarding schools maintained in the Taluka. No new shool has been added to the list consequently, the number was the same as shown in the last year viz, 7 for boys and 2 for girls. The total number of boys attending all the schools during the year under report was 407 and that of the girls was 100 as against 415 and 101 respectively during the year preceding. The Maliya composite school, the Khakhrechi shool and the 2 girls schools were examined by the Assistant Agency Educational Officer Jhalawad and Halar in the month of February last while the schools at Vadharwa Kumbharia and Nawagam were examined by the Head Master composite school in accordance with the arrangements proposed by the Educational Officer Kathiawar and sanctioned by the Agent to the Governor in Kathiawar with the approval of the Karbharis. The total expenditure on account of education during the year under report was Rs, 4540 as against Rs. 3906 during the previous year.

The Agency Educational Officer Kathiawar has sent a revised increased scale of pay for the employees of the schools in this state for approval. The matter is under consideration. The schools in this Taluka are under control and supervision of the Agency Educational Department and the Taluka pays its contribution like other states of classes III & IV. In addition to the above 9 schools the Taluka has to pay its share of a school at Kataria a co-shared village in Vagad under Cutch.

CHAPTER VIII.

Library.

There is one library in Maliya maintained by the Taluka. It is registered according to the rules in force in that connection. The Government Gazette and other publications are supplied to it free of cost.

Printing Press.

There is no Printing Press in the Taluka and no newspaper is published here.

Excise Revenue

Appendix XXI contains particulars about Excise revenue of the Taluka.

Receipts and Expenditure.

Appendix XXII supplies information of receipts and disbursements for the year under report. The net receipts for Heads I to VII amounted to Rs. 231678

The Birthday of H.I.M. the King Emperor.

The Birthay of His Imperial Majesty the King Emperor was celebrated on the 3rd June 1920 as notified by Government by observing it as a general Holiday and closing the schools and offices.

Census.

The Imperial Government having decided to take census of the whole of India for ascertaining the population as is being done every tenth year, rules were framed for the guidance of the officials working for the same. In pursuance of the Instructions and copies of the rules received here the State Nyayadhish was appointed ex-officio charge superintendent for the whole Taluka. He was assisted in the work of house numbering and dividing them into blocks and circles by a requisite number of supervisors and enumerators. The preliminary work was commenced in June and lasted till October. The first enumeration was commenced on the 10th and terminated on the 15th February while the final enumeration was taken on the night of the 18th March. The result of this work was communicated to the Agency Superintentent of Census as required by the rules. It appears from the totals of the final enumeration that the population of the Taluka has increased by 526 souls during the last decade not with standing the havoc committed by the Influenza epidemic of 1918 giving an increase of 43 per thousand of population.

The work of tabulation is taken up at the Agency Headquarters at Rajkot under the immediate supervision of the Agency Census Superintendent and one clerk as desired has been deputed on behalf on this Taluka for the purpose.

The Thakore Saheb took a very keen interest in all state matters all along the year and his local as well as general experience considerably helps the administration of the State in its several branches. The absence of the permanent Kamdar for nearly two thirds of the year under report devolved practically the whole burden on him, which was rendered particularly leavy on account of the out-lawry of some of the Mianas, the suppression of which has been the main object of all his efforts. The ready advice of the Political Agents from time to time bore no mean share in the successful administration of the Taluka, and the Thakore Saheb is very thankfull to the successive Political Agents.

All the subordinate officials conscientiously discharged their respective duties and they deserve thanks for that.

16th May 1921.

V. H. VAISHNAV,
Kamdar Maliya.

APPENDIX I

Names of high officials in the Maliya State and residency officials showing changes in the personnel during the year 1920–21.
